> Osudo 33 State Com № 1 Well Section 33, W¹/₄, T-20-S, R-36-E, NMPM, Lea County, New Mexico

Gentlemen:

Samson Resources Company (Samson) hereby proposes drilling Samson's Osudo 33 State Com № 1 Well as an 11,600' Morrow gas test well at a location of 1,160' FNL & 660' FWL of Section 33, Township 20-South, Range 36-East, NMPM, Lea County, New Mexico. Assuming a successful completion in the Morrow formation, a 320 acre communitized spacing unit would need to be established pursuant to the Osudo (Morrow) Pool Rules. Lea County records indicate that Oxy USA WTP Limited Partnership owns 25% of the undivided mineral rights in the SW¼ of Section 33, as to all depths for a total of 40 net acres.

Therefore, Samson respectfully requests that OXY (i) participate in the drilling of the aforementioned test well by executing and returning the enclosed AFE, (ii) or grant Samson a term assignment covering all its right, title and interest in the SW¼ of Section 33, T20S, R36E, NMPM, Lea County, New Mexico. Said term assignment being based on a consideration payment of \$12,000.00 (\$300.00 per acre x 40 acres) for a two (2) year primary term, and delivering to Samson not less than an 80% net revenue interest leasehold. All being subject to final management approval and the execution of a mutually acceptable term assignment.

Please be advised that Samson reserves the right to withdrawn its offers at any time, without notice, subsequent to the expiration of sixty (60) days from the date of this letter. Should you have questions, please contact my office at telephone number 432-686-6309.
