ConocoPhillips requests permission to place produced water, normally being injected into the McGrath SWD, the Basin SWD and the Agua Moss SWD, into the Jillison Federal #1 SWD, located on public lands in the NW/4 of Section 8, Township 24 North, Range 3 West in Rio Arriba County, New Mexico.

Attached is the Right of Way Grant/Temporary Use Permit from the Bureau of Land Management granting us the right to inject produced water into the Jillison Federal #1 SWD until January, 2023.

Please let me know if a water analysis is a requirement, and if so, how many will be needed. We would appreciate a verbal approval if possible, as our other injection capabilities stated above are close to their maximum capacities. I can be contacted at 505-326-9701.
