UNIT AND COMPULSORY POOLING, LEA COUNTY,
NEW MEXICO.**

Case No. 14,085

VERIFIED STATEMENT OF CARL SPEIGHT

Carl Speight, being duly sworn upon his oath, deposes and states:

1. I am a landman for Cimarex Energy Co., and have personal knowledge of the matters stated herein.

2. Pursuant to Division Rule 1210.A(1)(b), the following information is submitted in support of the application filed herein:

(a) No opposition to this application is expected because the mineral interest owners being pooled have simply not responded to well proposals.

(b) A plat outlining the spacing unit being pooled, and marking the location of the proposed well, is attached hereto as Exhibit A. Applicant seeks an order pooling all mineral interests in the Wolfcamp formation underlying the W $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 13, Township 15 South, Range 37 East, N.M.P.M., Lea County, New Mexico. The unit is to be dedicated to the Sunshine Well No. 1, a horizontal well drilled at a surface location 2235 feet from the south line and 660 feet from the west line of Section 13, with a terminus 379 feet from the south line and 664 feet from the west line of Section 13. The well unit is non-standard because of the horizontal well.

(c) The parties being pooled, their interests in the well unit, and their last known addresses, are:

Occidental Permian Ltd.	4.6875%

Oil Conservation Division
Case No. _____
Exhibit No. 1

The W $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 13 is a fee tract with common, undivided mineral ownership throughout the well unit.

(d) Copies of the proposal letters sent to the uncommitted mineral interest owners are attached hereto as Exhibit B.

(e) Cimarex Energy Co. has made a good faith effort to obtain the voluntary joinder of interest owners in the well.

(f) Pursuant to Division rules, applicant requests that a 200% risk charge be assessed against non-consenting interest owners.

(g) A copy of the Authority for Expenditure for the proposed well is attached hereto as Exhibit C. The drilling and completion costs set forth therein are fair and reasonable, and are comparable to those of other wells of this depth drilled in this area of Lea County.

(h) Overhead charges of \$6,000.00/month for a drilling well, and \$600.00/month for a producing well, are requested. These rates are fair and reasonable, and are in line with rates charged by other operators in this area for wells of this depth. Cimarex Energy Co. requests that the rates be adjusted under the COPAS accounting procedure.

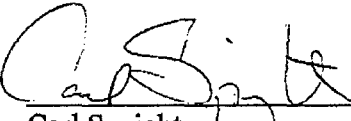

(i) Applicant requests that it be designated operator of the well.

Dear Mr. Evans:

According to our title research Occidental Permian Limited Partnership (hereinafter referred to as "Oxy") owns an undivided 3.75 net mineral acres under the above described lands. Please be advised that our client, Cimarex Energy Co., proposes to drill a horizontal Wolfcamp test at the following location in Section 13, Township 15 South, Range 37 East, Lea County, New Mexico:

- Surface Hole Location: 2260' FSL & 380' FWL
- Bottom Hole Location: 330' FSL & 380' FWL

Enclosed is a detailed AFE reflecting estimated well costs.

If Oxy wishes to participate and pay its proportionate share of well costs, please have the enclosed AFE executed and returned to the undersigned. If Oxy would like to lease its interest, we propose \$150.00 an acre bonus consideration, three (3) year primary term and a one-fourth (1/4) royalty on a mutually acceptable lease form.

If we have not received an election from Oxy to either participate or lease within 30 days of receipt of this letter, Cimarex will most likely implement a compulsory pooling hearing for this interest.

Please do not hesitate to contact us with any questions. We look forward to your response.

Sincerely,
