Don

I guess I have not made myself very clear in my requests. I apologize for that.

Please familiarize yourself with the requirements of NMOCD Rule 116 and the Guidelines for Leaks and Spills, which are located on our web page. [www.emnrd.state.nm.us/ocd](http://www.emnrd.state.nm.us/ocd)

You are required to send a complete work plan for remediation prior to closure of the project.

The plan was due to me on August 13, 2007, and I have not received it.

This plan must include the results of the sampling required to delineate the area.

To preclude further enforcement action this plan must be received by NMOCD no later than **September 24, 2007**.

There was two pages in my attachment. The first page is a copy of the C-141 you sent me. The second page was to notify you of the plan required.
