Judah Oil, LLC  
P O Box 568  
Artesia, NM 88211-0568

Dear Sir:

We, here at Key Energy Services, are very supportive of your decision to put into operation another salt water disposal well. With the amount of production water in the area to be disposed of, another facility would be extremely helpful for us to conduct our business more efficiently.

Continually, we haul to the existing disposals in the area to find they are full or that there are trucks backed up waiting to unload. Another disposal well would help alleviate the pressure on existing wells and again help us to do our job more efficiently.

Sincerely,

Mark Perry

To Whom It May Concern:

Jim's Water Service of New Mexico feels that there is a need for a public disposal east of Artesia, NM due to the limited public disposal's available to trucking companies at the present time.

Sincerely,

Dimas Herrera

General Manager/Vice President

James Campanella  
PO Box 568  
Artesia, NM 88211-0568

Mr. Campanella,

I would like to express the need for an additional disposal facility. There is a strong need for an additional salt water disposal well. With the steady rise in fuel costs, an additional well would bring considerable savings in these fuel costs.

I look forward to working with you in the future.

Sincerely,

*Bob Betancourt*
