

BEFORE THE

SANTA FE

OIL CONSERVATION DIVISION

NEW MEXICO DEPARTMENT OF ENERGY AND MINERALS

IN THE MATTER OF THE APPLICATION  
OF GETTY OIL COMPANY FOR AMENDMENT  
OF ORDER NO. R-6965, LEA COUNTY,  
NEW MEXICO.

Case 7722

APPLICATION

COMES NOW, GETTY OIL COMPANY, and applies to the New Mexico Oil Conservation Division for an order amending Division Order R-6965 to provide for the disposal of produced salt water into the Abo formation by injection into the perforated interval from approximately 8450 to 9300 in its State "P" Well No. 1 located in Unit P of Section 32, Township 16 South, Range 37 East, N.M.P.M., Lovington-Abo Pool, Lea County, New Mexico and in support thereof Applicant would show:

1. Applicant obtained approval to dispose of produced salt water into the Abo formation in its State "P" Well No. 1 by injection into the perforated interval from 8900 feet to 9300 feet by Order R-6965 which was entered on May 3, 1982.
2. Applicant has converted the State "P" No. 1 Well to disposal and completed all required cementing of offsetting wells.
3. That the State "P" No. 1 Well is unable to take the 7000 barrels of water anticipated through the perforated interval from 8900 to 9300 feet.
4. That increasing the perforated interval to 8450 feet to 9300 should enable applicant to dispose of the anticipated 7000 barrels of water per day without increasing the injection pressure.

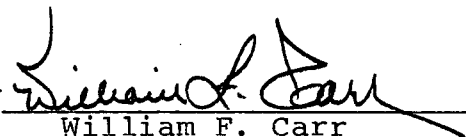

5. That approval of this application will be in the best interest of conservation, the prevention of waste and the protection of correlative rights.

WHEREFORE, Applicant requests that this matter be set for hearing on November 10, 1982 before the Division's duly appointed examiner, and that after notice and hearing as required by law, the Division enter its order amending Order R-6965 to provide for disposal into the perforated interval from 8450 feet to 9300 in the Getty State "P" Well No. 1.

Respectfully submitted,

CAMPBELL, BYRD & BLACK, P.A.
