Gentlemen:

I could do this either day – June 27 or June 30.

It is, however, presently set for June 27, and to move it will require a motion. It is sounding like it will not be agreed. We will need to have a hearing or telephone conference if such a motion is filed and not agreed.

Sincerely
David K. Brooks
Legal Examiner

I see no reason to change the scheduled hearing. My three witnesses (landman, geologist, engineer) have already made arrangements to be in Santa Fe for Friday, June 27th. Since Intrepid only plans to call one witness (a geologist), we should be able to get this hearing done in one day.

Mike and David,

We have changed Sarah's 50th birthday plans to the following week so I think we could do the Fasken hearing starting on June 30 and extending to July 1, if necessary. This would eliminate the potential need for two trips for witnesses, etc. Would this work?

Attached is a signed acknowledgment. My office will arrange pick-up first thing Monday morning.

Are the documents you have available all of the responsive documents? If not, to what paragraphs of the subpoena are the documents responsive?

Joe: I will provide acknowledgments once we have documents that fall under the Confidentiality Order. We have yet to receive any documents from Intrepid.

Joe: I assume Intrepid will comply with the Division's order, since our subpoena has been outstanding for sometime now. My client is expecting the documents and affidavits today.

Mike,

Here's the status of our documents.

I should receive a substantial portion of the Intrepid document production today electronically in zip files. I will review them and forward them to you by e-mail. However, we still have to make the "confidentiality" designations which will take some time, unless you can think of a more efficient way to address that issue.

Intrepid is also sending me a disc of the files and a hard copy of the maps, etc by overnight express, so we will review and either get copies of those over to you tomorrow, or alternatively, have you inspect them if copying them looks like too big a job.
