RE: COMMENCEMENT OF AGI OPERATIONS AT SUGS JAL 3 AGI #1

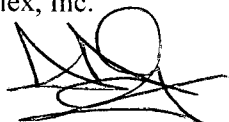

Dear Richard:

As a follow-up to my e-mail of Wednesday, March 25, 2009, I am writing this letter to officially confirm that Southern Union Gas Services (SUGS) initiated AGI operations on March 24, 2009, pursuant to NMOCD Order #R-12921.

Beginning at the end of this month, SUGS will begin reporting the injection volumes and pressures on Forms C-115 pursuant to NMOCD requirements.

If you have any questions regarding the status of the well or the current injection, please call me at (505)-842-8000. Geolex and SUGS appreciate all of your work in helping to get this project underway, which will aid the environment through the sequestration of significant volumes of CO₂ and H₂S in an environmentally safe manner.

Sincerely,
Geolex, Inc.

Alberto A. Gutierrez, RG
President

cc: Ross Boyd – SUGS
