Re: Notification of Election under Compulsory Pooling Order  
Paloma "20" State COM #1 Well  
660' FSL & 660' FEL, Section 20, T-20-S, R-36-E  
Lea County, New Mexico  
NMOCD Case No. 14086  
Order R-12915

Dear Mrs. Rodgers:

In accordance with the terms of the New Mexico Oil Conservation Division Order R-12915, copy enclosed, you are hereby notified of your right to elect to participate in the above reference well pursuant to this order. You own a 0.01573424% contractual interest in the SW/4 of Section 20, T20S, R36E, Lea County, New Mexico by virtue of that certain Operating Agreement dated October 10, 1967 between Jake L. Hamon as Operator and Pan American Petroleum Corporation, et al, as non-operators. As a result you would have a 0.003934% interest in the proposed well as to formations spaced on 640 acre spacing.

Should you desire to participate in this well under the pooling order and avoid the payment of the 200% risk factor out of its share of production, then within thirty days of the date you receive this letter, Mewbourne Oil Company (Mewbourne) must receive a cashier's check for \$103.93 being your 0.003934% share of the completed well costs for the subject well as reflected in the attached well AFE. In the alternative, you may participate in this well pursuant to the terms of the JOA previously provided to you by unconditionally executing and returning a copy thereof within said thirty days. If you choose to participate under the JOA you will then have your same interest in all depths covered by the JOA. As a third alternative, Mewbourne hereby proposes that you execute and return the enclosed Term Assignment of Contractual Rights. Upon receipt of a properly executed and acknowledged Term Assignment, I will mail you a check in the amount of \$415.72 (4 x \$103.93) as consideration for your execution of the Term Assignment. Mewbourne's offer to accept a Term Assignment of your interest shall expire at midnight central standard time on April 30, 2008.

Sally Rodgers  
Paloma 20 St COM #1  
March 14, 2008  
Page 2 of 2

Finally, if you elect not to participate or grant the Term Assignment then you need do nothing further. In that event, Mewbourne will pay your share of the costs of the well and will recover your share out of production plus an additional 200%.

Sincerely,

**MEWBOURNE OIL COMPANY**

Order R-12915

Gentlemen:

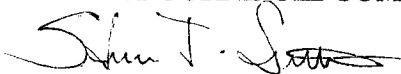

In accordance with the terms of the New Mexico Oil Conservation Division Order R-12915, copy enclosed, you are hereby notified of your right to elect to participate in the above reference well pursuant to this order. BMT O&G NM, LLC (BMT) owns a 16.2096517% contractual interest in State of New Mexico Lease A-1375 insofar as it covers the N/2SW/4 and SE/4SW/4 of Section 20 and State of New Mexico Lease B-3114 insofar as it covers the SW/4SW/4 of said Section 20, both in T20S, R36E, Lea County, New Mexico by virtue of that certain Operating Agreement dated October 10, 1967 between Jake L. Hamon as Operator and Pan American Petroleum Corporation, et al, as non-operators. As a result, BMT has a 4.052413% interest in the well as to formations spaced on 640 acre spacing.

Should BMT desire to participate in this well under pooling order and avoid the payment of the 200% risk factor out of its share of production, then within thirty days of the date you receive this letter, Mewbourne Oil Company (Mewbourne) **must** receive a cashier's check for \$107,056.65 being BMT's 4.052413% share of the completed well costs for the subject well as reflected in the attached well AFE. In the alternative, BMT may participate in this well pursuant to the terms of the JOA previously provided to you by unconditionally executing and returning a copy thereof within said thirty days.

If you elect not to participate then you need do nothing further. In that event, Mewbourne will pay your share of the costs of the well and will recover your share out of production plus and additional 200%.

Sincerely,

MEWBOURNE OIL COMPANY

**STATE OF NEW MEXICO  
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT  
OIL CONSERVATION DIVISION**

**IN THE MATTER OF THE HEARING  
CALLED BY THE OIL CONSERVATION  
DIVISION FOR THE PURPOSE OF  
CONSIDERING:**

**CASE NO. 14086  
ORDER NO. R-12915**

**APPLICATION OF MEWBOURNE OIL COMPANY FOR COMPULSORY  
POOLING, LEA COUNTY, NEW MEXICO.**

**ORDER OF THE DIVISION**

**BY THE DIVISION:**

This case came for hearing at 8:15 a.m. at Santa Fe, New Mexico on February 21, 2008 before Examiners David K. Brooks and William V. Jones.

NOW, on this 10<sup>th</sup> day of March 2008, the Division Director, having considered the testimony, the record and the recommendations of the Examiners,

**FINDS THAT:**

(1) Due public notice has been given, and the Division has jurisdiction of this case and of the subject matter.

(2) The applicant, Mewbourne Oil Company ("applicant" or "Mewbourne"), seeks an order pooling all uncommitted interests from the base of the Bone Spring formation to the base of the Morrow formation underlying all of Section 20, Township 20 South, Range 36 East, NMPM, Lea County, New Mexico, to form a standard 640-acre gas spacing unit for all formations and pools spaced on 640 acres within this vertical extent, including but not limited to the North Osudo-Morrow Gas Pool (82160).

(3) The above-described unit ("the Unit") is to be dedicated to the applicant's Paloma 20 State Com Well No. 1 (API No. 30-025-38625), to be drilled at a standard location 660 feet from the South line and 660 feet from the East line (Unit P) of Section 20.

(4) The application included a request to pool any gas production within the E/2 of Section 20. This request was withdrawn at the hearing by the applicant.

Case No. 14086  
Order No. R-12915  
Page 2 of 5

---

(5) This proposed well location and proposed 640-acre spacing unit are wholly located within the boundaries of the North Osudo-Morrow Gas Pool. The Oil Conservation Commission on August 29, 1967 (Case No. 3462), Order No. R-3305, established Special Pool Rules for the North Osudo-Morrow Gas Pool, providing for 640-acre gas spacing units with wells to be spaced no closer than 1650 feet from the outer boundary of the Section and no closer than 330 feet from the boundary of the quarter-quarter in which the well is located. The Commission made these rules permanent on August 13, 1968 with Order No. R-3305-A.

(6) These Special Pool Rules were modified December 13, 2006 with Division Order No. R-12669. Said order froze any further extension of the pool boundary, allowed four wells per 640-acre spacing unit - one in each quarter section, and allowed these wells to be located no closer than 660 feet from the boundary of the quarter section in which the well is located.

(7) No other parties entered an appearance in this case or otherwise opposed the application.

(8) Applicant is an owner of an oil and gas working interest within the Unit. Applicant has the right to drill and proposes to drill the Paloma 20 State Com Well No. 1 (API No. 30-025-38625) to approximately 11,600 feet deep within Section 20 to test for gas in the Morrow formation.

(9) Two or more separately owned tracts are embraced within the Unit, and/or there are royalty interests and/or undivided interests in oil and gas minerals in one or more tracts included in the Unit that are separately owned.

(10) There are interest owner(s) in this Unit that were not locatable or have not yet agreed to pool their interest(s).

(11) To avoid the drilling of unnecessary wells, protect correlative rights, prevent waste and afford to the owner of each interest in the Unit the opportunity to recover or receive without unnecessary expense its just and fair share of hydrocarbons, this application should be approved by pooling all uncommitted interests, whatever they may be, in the oil and gas within the Unit.

(12) Applicant should be designated the operator of the proposed well and of the Unit.

(13) Any pooled working interest owner who does not pay its share of estimated well costs should have withheld from production its share of reasonable well costs plus an additional 200% thereof as a reasonable charge for the risk involved in drilling the well.

(14) Reasonable charges for supervision (combined fixed rates) should be fixed at \$7000 per month while drilling and \$700 per month while producing, provided that

Case No. 14086  
Order No. R-12915  
Page 3 of 5

---

these rates should be adjusted annually pursuant to Section III.1.A.3. of the COPAS form titled "*Accounting Procedure-Joint Operations*."

**IT IS THEREFORE ORDERED THAT:**

(1) Pursuant to the application of Mewbourne Oil Company ("applicant"), all uncommitted interests, whatever they may be, in the oil and gas from the base of the Bone Spring formation to the base of the Morrow formation underlying all of Section 20, Township 20 South, Range 36 East, NMPM, Lea County, New Mexico, are hereby pooled, as follows:

all of Section 20 to form a standard 640-acre gas spacing unit for all formations and pools spaced on 640 acres within this vertical extent, including but not limited to the North Osudo-Morrow Gas Pool (82160).

(2) The above-described unit ("the Unit") shall be dedicated to the applicant's Paloma 20 State Com Well No. 1 (API No. 30-025-38625), to be drilled at a standard gas well location within Unit P of Section 20.

(3) Applicant's request to pool gas production within the 320 acres consisting of the E/2 of Section 20 is hereby dismissed.

(4) The operator of the Unit shall commence drilling this well on or before May 31, 2008 and shall thereafter continue drilling and completion operations with due diligence to test the Morrow formation at an approximate total depth of 11,600 feet.

(5) In the event the operator does not commence drilling operations on the proposed well on or before May 31, 2008, Ordering Paragraph (1) shall be of no effect, unless the operator obtains a time extension from the Division Director for good cause.

(6) Should the proposed well not be drilled and completed within 120 days after commencement thereof, Ordering Paragraph (1) shall be of no further effect, and the unit created by this Order shall terminate unless the operator appears before the Division Director and obtains an extension of time to complete the well for good cause demonstrated by satisfactory evidence.

(7) Upon final plugging and abandonment of the Paloma 20 State Com Well No. 1 (API No. 30-025-38625) and any other well drilled on the Unit pursuant to Division Rule 36, the pooled unit created by this Order shall terminate, unless this order has been amended to authorize further operations.

(8) Mewbourne Oil Company (OGRID 14744) is hereby designated the operator of the proposed well and of the Unit.

(9) After pooling, uncommitted working interest owners are referred to as pooled working interest owners. ("Pooled working interest owners" are owners of

Case No. 14086  
Order No. R-12915  
Page 4 of 5

---

working interests in the Unit, including unleased mineral interests, who are not parties to an operating agreement governing the Unit.) After the effective date of this order, the operator shall furnish the Division and each known pooled working interest owner in the Unit an itemized schedule of estimated costs of drilling, completing and equipping the proposed well ("well costs").

(10) Within 30 days from the date the schedule of estimated well costs is furnished, any pooled working interest owner shall have the right to pay its share of estimated well costs to the operator in lieu of paying its share of reasonable well costs out of production as hereinafter provided, and any such owner who pays its share of estimated well costs as provided above shall remain liable for operating costs but shall not be liable for risk charges. Pooled working interest owners who elect not to pay their share of estimated well costs as provided in this paragraph shall thereafter be referred to as "non-consenting working interest owners."

(11) The operator shall furnish the Division and each known pooled working interest owner (including non-consenting working interest owners) an itemized schedule of actual well costs within 90 days following completion of the proposed well. If no objection to the actual well costs is received by the Division, and the Division has not objected within 45 days following receipt of the schedule, the actual well costs shall be deemed to be the reasonable well costs. If there is an objection to actual well costs within the 45-day period, the Division will determine reasonable well costs after public notice and hearing.

(12) Within 60 days following determination of reasonable well costs, any pooled working interest owner who has paid its share of estimated costs in advance as provided above shall pay to the operator its share of the amount that reasonable well costs exceed estimated well costs and shall receive from the operator the amount, if any, that the estimated well costs it has paid exceed its share of reasonable well costs.

(13) The operator is hereby authorized to withhold the following costs and charges from production:

(a) the proportionate share of reasonable well costs attributable to each non-consenting working interest owner; and

(b) as a charge for the risk involved in drilling the well, 200% of the above costs.

(14) The operator shall distribute the costs and charges withheld from production, proportionately, to the parties who advanced the well costs.

(15) Reasonable charges for supervision (combined fixed rates) are hereby fixed at \$7000 per month while drilling and \$700 per month while producing, provided that these rates shall be adjusted annually pursuant to Section III.1.A.3. of the COPAS form titled "Accounting Procedure-Joint Operations." The operator is authorized to

Case No. 14086  
Order No. R-12915  
Page 5 of 5

---

withhold from production the proportionate share of both the supervision charges and the actual expenditures required for operating the well, not in excess of what are reasonable, attributable to pooled working interest owners.

(16) Except as provided above in Ordering paragraphs (13) and (15), all proceeds from production from the well that are not disbursed for any reason shall be placed in escrow in Lea County, New Mexico, to be paid to the true owner thereof upon demand and proof of ownership. The operator shall notify the Division of the name and address of the escrow agent within 30 days from the date of first deposit with the escrow agent.

(17) Any unleased mineral interest shall be considered a seven-eighths (7/8) working interest and a one-eighth (1/8) royalty interest for the purpose of allocating costs and charges under this order. Any well costs or charges that are to be paid out of production shall be withheld only from the working interests' share of production, and no costs or charges shall be withheld from production attributable to royalty interests.

(18) Should all the parties to this compulsory pooling order reach voluntary agreement subsequent to entry of this order, this order shall thereafter be of no further effect.

(19) The operator of the well and Unit shall notify the Division in writing of the subsequent voluntary agreement of all parties subject to the forced pooling provisions of this order.

(20) Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.
