**Subject:** Case No. 14423; Application of COG Operating LLC for Expansion of Pool Boundaries

Dear Scott

I have reviewed this case and note that only land testimony was offered.

The application seeks pool expansion. "Pool" is defined in OCD Rule 2.7.P(5) in geologic terms. Thus I do not see how I can recommend an order in this case without some geologic evidence.

Since the case is uncontested, I see no need to re-open the hearing, but request that you file an affidavit by a geologist attesting that to a geologic basis for inclusion of the expanded area in the indicated pool.

Sincerely

David K. Brooks  
Legal Examiner
