Gentlemen:

By letter dated February 2, 2010, Devon Energy Production Company, L.P. ("Devon") proposed to drill the referenced well as an approximate 11,278' (MD) horizontal Wolfcamp well and dedicating the N/2 N/2 of said section 5 as the drilling and spacing unit. An Authority for Expenditure ("AFE"), in duplicate, was submitted reflecting an estimated dry hole cost of \$2,037,000 and estimated completed well cost of \$3,667,000.

To date, Devon has not received a response to such proposal. Again, Devon respectfully requests your prompt evaluation and election. An election to participate should be accompanied by an executed AFE, an executed signature page to the previously submitted Joint Operating Agreement and your well requirement sheet including email address.

Please contact the project engineer, Greg McGowen, at 405-228-8965 or the undersigned at 405-552-8040 if there are any questions or if additional information is required.

Yours very truly,

DEVON ENERGY PRODUCTION COMPANY, L.P.
