The units are to be dedicated to the Penny Pincher 21 Fed Com No. 4H well, a horizontal well to be drilled at an orthodox surface location in the NE/4 NE/4 of Section 21, with a terminus at an

orthodox location in the SE/4 SE/4 of Section 21. Also to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, the designation of Cimarex Energy Co. of Colorado as the operator of the well, and a 200% charge for the risk involved in drilling and completing the well.
