**Re: NMOCD Case No. 14456; Application of COG Operating LLC for
Authorization to Conduct Injection Operations for Evaluation for
Secondary Recovery Operations, Eddy County, New Mexico**

Dear Sir or Madam:

This will advise that COG Operating LLC ("COG") has filed an Application with the New Mexico Oil Conservation Division for an order authorizing Applicant to convert and utilize its Mesquite State No. 15 well for injection of water through a closed system into the Paddock and Blinbry members of the Glorieta-Yeso formation. The well is located in Section 20, Township 17 South, Range 29 East, NMPM, Eddy County, New Mexico. As owner of the surface, you are being notified of COG's Application.

Copies of the Application for hearing and COG's C-108 Application for Authorization to Inject are enclosed.

This application will be set for hearing before a Division Examiner on April 1, 2010, at 8:15 a.m. at the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico. You are not required to attend this hearing, but as an owner of an interest that may be affected, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging this application at a later time. If you intend to attend the hearing and present testimony or

**IN THE MATTER OF THE APPLICATION OF COG
OPERATING, LLC FOR AUTHORIZATION TO
CONDUCT INJECTION OPERATIONS FOR
EVALUATION FOR SECONDARY RECOVERY
OPERATIONS, EDDY COUNTY, NEW MEXICO.**

CASE NO. 14456

APPLICATION

COG Operating, LLC, ("COG"), through its undersigned counsel, Montgomery and Andrews, P.A. (J. Scott Hall, Esq.), applies pursuant to 19.15.26.8 NMAC for an order authorizing the injection of water into the Paddock and Blinebry members of the Glorieta-Yeso formation, Empire East Yeso Pool (96610) in Eddy County, New Mexico. In support of its Application, COG states:

1. Applicant is the operator of the following well:

Mesquite State No. 15
API No. 30-015-34496
1750' FSL & 990' FWL (Unit L)
Section 20
T-17-S, R-29-E, NMPM
Eddy County, New Mexico

2. Mesquite State No. 15 well is drilled to a total depth of 5415' and was originally operated as a producing oil well. COG proposes to convert and utilize the wells for injection of water through a closed system into the Paddock and Blinebry formations, Empire East Yeso Pool, through perforations within the depths of 3,873' to 4,214' (Paddock) and 4,336' to 5,289' (Blinebry). Data from injection will be utilized to evaluate the feasibility of secondary recovery operations in the referenced formations.

3. Injection operations through the well will be conducted at an anticipated average daily injection pressure of 2,000 psi with a maximum surface injection pressure of 2,000 psi or as permitted by the Division, in excess of a 0.2 psi/ft. gradient. Applicant proposes injection of water at average daily rates of approximately 1,000 bbls and at maximum daily rates of approximately 2,000 bbls. The source of the injected fluids will be formation water from production wells that have been drilled and are scheduled to be drilled in the area.

4. Applicant's proposed injection operation can be conducted in a safe and responsible manner without causing waste, impairing correlative rights or endangering fresh water, public health or the environment.

WHEREFORE, Applicant requests that this Application be set for hearing before a duly appointed examiner of the Oil Conservation Division on April 1, 2010 and that after notice and hearing as required by law, the Division enter its Order approving the conversion of the Mesquite State No. 15 Well for the injection of water into the Paddock and Blinbry members of the Glorieta-Yeso formation at the intervals and at the pressures, volumes and rates indicated, and making such other and further provisions as the Division determines appropriate.

CASE NO. 14456

**IN THE MATTER OF THE APPLICATION OF COG
OPERATING, LLC FOR AUTHORIZATION TO
CONDUCT INJECTION OPERATIONS FOR
EVALUATION FOR SECONDARY RECOVERY
OPERATIONS, EDDY COUNTY, NEW MEXICO.**

APPLICATION

COG Operating, LLC, ("COG"), through its undersigned counsel, Montgomery and Andrews, P.A. (J. Scott Hall, Esq.), applies pursuant to 19.15.26.8 NMAC for an order authorizing the injection of water into the Paddock and Blinebry members of the Glorieta-Yeso formation, Empire East Yeso Pool (96610) in Eddy County, New Mexico. In support of its Application, COG states:

1. Applicant is the operator of the following well:

Mesquite State No. 15
API No. 30-015-34496
1750' FSL & 990' FWL (Unit L)
Section 20
T-17-S, R-29-E, NMPM
Eddy County, New Mexico

2. Mesquite State No. 15 well is drilled to a total depth of 5415' and was originally operated as a producing oil well. COG proposes to convert and utilize the wells for injection of water through a closed system into the Paddock and Blinebry formations, Empire East Yeso Pool, through perforations within the depths of 3,873' to 4,214' (Paddock) and 4,336' to 5,289' (Blinebry). Data from injection will be utilized to evaluate the feasibility of secondary recovery operations in the referenced formations.

3. Injection operations through the well will be conducted at an anticipated average daily injection pressure of 2,000 psi with a maximum surface injection pressure of 2,000 psi or as permitted by the Division, in excess of a 0.2 psi/ft. gradient. Applicant proposes injection of water at average daily rates of approximately 1,000 bbls and at maximum daily rates of approximately 2,000 bbls. The source of the injected fluids will be formation water from production wells that have been drilled and are scheduled to be drilled in the area.

4. Applicant's proposed injection operation can be conducted in a safe and responsible manner without causing waste, impairing correlative rights or endangering fresh water, public health or the environment.

WHEREFORE, Applicant requests that this Application be set for hearing before a duly appointed examiner of the Oil Conservation Division on April 1, 2010 and that after notice and hearing as required by law, the Division enter its Order approving the conversion of the Mesquite State No. 15 Well for the injection of water into the Paddock and Blinbry members of the Glorieta-Yeso formation at the intervals and at the pressures, volumes and rates indicated, and making such other and further provisions as the Division determines appropriate.

**Re: NMOCD Case No. 14456; Application of COG Operating LLC for
Authorization to Conduct Injection Operations for Evaluation for Secondary
Recovery Operations, Eddy County, New Mexico**

Dear Sir or Madam:

This will advise that COG Operating LLC ("COG") has filed an Application with the New Mexico Oil Conservation Division for an order authorizing Applicant to convert and utilize its Mesquite State No. 15 well for injection of water through a closed system into the Paddock and Blinbry members of the Glorieta-Yeso formation. The well is located in Section 20, Township 17 South, Range 29 East, NMPM, Eddy County, New Mexico.

A copy of the Application is enclosed. You were previously provided with a copy of COG's C-108 Application for Authorization to Inject by certified mail. Should you require another copy of the C-108, please advise.

This application will be set for hearing before a Division Examiner on April 1, 2010, at 8:15 a.m. at the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico. You are not required to attend this hearing, but as an owner of an interest that may be affected, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging this application at a later time. If you intend to attend the hearing and present testimony or evidence, you must enter your
