Re: Blancett Ranch 24 #1, T30N-R12W, Section 24: E/2, San Juan County, NM
API #30-045-33769
Application to Amend Order R-13053 New Mexico Oil Conservation Division,
Case No 14498
Revised Unorthodox Location: 2463 feet FNL and 552 feet FEL
Waiver of Objection

Dear Ladies and Gentlemen:

By letter dated September 29, 2008, we waived objection to the unorthodox located, 2435 feet FNL and 450 feet FEL, filed by the Operator, San Juan Resources, Inc. (SJR) approved by Order R-13053 dated November 18, 2008, entered in Case 14179.

We hereby also waive objection to the revised unorthodox location captioned above. I was onsite as the location was being built and would like to further state that we support SJR in this amended application which is less unorthodox than originally approved by Order R-13053.

SJR has consistently worked with Blancett Land & Cattle to obtain a favorable location at a distance from our fields and pastures which are at a premium along the Animas River. And, we are aware the accommodation by SJR has resulted in additional location construction costs.

Please feel free to contact me should you have any questions.

Very truly yours.
