Case 14506

Re: Application of Chesapeake Operating, Inc. for administrative approval of an unorthodox well location for its Skeen "21" State Well No. 1H to be drilled from a surface location and penetration point 250 feet from the North line and 2310 feet from the West line and a bottomhole location 330 feet from the South line and 2310 feet from the West line of Section 21, Township 26 South, Range 28 East, NMPM, Eddy County, New Mexico.

Dear Mr. Fesmire:

Chesapeake Operating, Inc. ("Chesapeake") hereby seeks administrative approval pursuant to the provisions of Division Rules 19.15.15.13 and 19.15.16.14 for an unorthodox well location for its Skeen "21" State Well No. 1H. This well is located in Section 21, Township 26 South, Range 28 East, N.M.P.M., Eddy County, New Mexico and is to be drilled in the Bone Spring formation at a surface location and a penetration point 250 feet from the North line and 2310 feet from the West line and a bottomhole location 330 feet from the South line and 2310 feet from the West line of Section 21, Eddy County, New Mexico. A 160-acre project area has been dedicated to this horizontal well comprised of the E/2 W/2 of Section 21.

This location is unorthodox because the Bone Spring formation under this acreage is governed by the Division's statewide rules which provide for wells on 40-acre spacing units to be located no closer than 330 feet to the outer boundary of the spacing unit. Division Rule 19.15.16.14 defines the "Penetration Point" as "the point where the wellbore penetrates the top of the pool from which it is intended to produce." The wellbore penetrates the Bone Spring formation at a point 250 feet from the North line of Section 21 and is therefore closer than allowed by Division rules.

Although the wellbore penetrates the top of the Bone Spring at an unorthodox location, the well will be at a standard location at the producing interval. Chesapeake is targeting the Upper Avalon Shale at 6671 feet. Therefore, once Chesapeake reaches the targeted formation, it will be at a standard location.

Exhibit A is a plat showing the location of the well. This location is encroaching on the SE/4 SW/4 and the SW/4 SE/4 of Section 16. **Exhibit B** is the C-102 for this well.

A copy of this application with all attachments was mailed to the lessees of record in the S/2 SW/4 and SW/4 SE/4 in Section 16 as shown on **Exhibit C**. These affected parties were advised that if they have an objection to this application it must be filed in writing with the Division's Santa Fe office within twenty days from the date notice was sent. They were also advised that if no objections were received by the Division within twenty days, the Division Director could approve the application.

Your attention to this application is appreciated.

Sincerely,
