APPLICANT'S STATEMENT OF CASE

Mack Energy seeks an order to amend pooling Order R-12006 to include additional oil wells for NW/4 SW/4 (Unit L) and the NE/4 SW/4 (Unit K) of Section 31, Township 17 South, Range 32 East, N.M.P.M., Lea County, New Mexico. Division Order R-12006 pooled the mineral interests in the SW/4 of said Section 31 to form the following standard 40-acre spacing and proration units:

The NW/4 SW/4 (Unit L), which is dedicated to the Panther Federal Well No. 1 located 1650 FSL and 330 FWL;

The NE/4 SW/4 (Unit K), which is dedicated to the Panther Federal Well No. 3 located 1650 FSL and 1650 FWL;

The SW/4 SW/4 (Unit M), which is dedicated to the Panther Federal Well No. 5 to be located 990 FSL and 990 FWL; and

The SE/4 SW/4 (Unit N), which is dedicated to the Panther Federal Well No. 6 to be located 990 FSL and 2310 FWL.

Mack Energy is the designated operator of these four standard 40-acre spacing units, and proposes to drill the following additional wells in the referenced spacing units:

The Panther Federal Well No. 2 in the NW/4 SW/4 (Unit L) at a standard location 2310 FSL and 990 FWL; and

The Panther Federal Well No. 4 in the NE/4 SW/4 (Unit K) at a standard location 2310 FSL and 2310 FWL.

Mack Energy has sought and been unable to obtain a voluntary agreement for the development of these lands from the Brooks Moleen Trust. Mack Energy requests that the Division amend Division Order R-12006 to include these additional two wells, and to impose a 200% risk penalty against the Brooks Moleen Trust pursuant to Division Rule 19.15.1.35.
