Attention: Paul Haden

Dear Mrs. Haden:

Thank you for your reply.

I am willing to take my chances that someday I will get revenue out of this well through the forced pooling stipulations.

I will assume that I will be receiving notices on the force pooling proceedings and that I will be receiving a copy of the order specifying the terms of the forced pooling.

Sincerely,

Clifford Cone

Mr. Cone , thanks for the reply. That's your decision if you want to be force pooled. At least I tried to persuade you not to be force pooled. If you change your mind later , let me know and we can work out a trade. Thanks and have a great week.

Re: Bradley "29" Fed. Com #4H

Dear Mr. Haden:

Thank you for your e-mail reply to my letter.

Perhaps, you are correct that I will never see any revenue going the 300% penalty route. Nevertheless, I think that I will go this route.

Sincerely,

Clifford Cone

Subj: Re: Bradley "29" Fed. Com #4H

Hello Mr. Cone.

Thanks for the response , now I know that at least you aren't ignoring us.

We have made trades with some of the other Cone family members but so far not with Kenneth Cone and yourself. We always have to force pool Kenneth Cone.

The penalty for force pooling gives us a three to one return on our investment as to your interest or as to any other interest owner we have to force pool. You are charged with a non-consent penalty of 200% plus 100% of the well cost which makes it a 300% non-consent penalty. You get nothing from the revenue from the proposed well until Mewbourne recovers 300% of its investment. After the 300% penalty is paid out of production, you then will become a joint interest owner and will be expected to pay your part of the well cost after that point whereby you will get your proportionate part of the revenues.

Generally, by the time we get 300% back on our investment which seldom ever happens, the well is depleted and ready to be plugged of which you will have to pay your part of the plugging costs. I've been with this company over 31 years and have seldom seen where we get 300% of our money back.

We will have to force pool Kenneth. You can do what you want but if I were you, I would take the cash and overriding royalty we are offering in lieu of getting nothing.

Please call or email me if you have any other questions. Thanks for your consideration.

Re: Bradley "29" Federal Com. #4H Well  
Second Bone Springs Formation / 8,200 Feet  
T18S-R30E: Section 29: N/2N/2  
Eddy County, New Mexico

Dear Mr. Haden:

Thank you for your letter dated: October 26, 2010, and your letter dated: November 15, 2010.

First, I do not believe that I can justify spending the money to participate in the subject well. I know practically nothing about the geology, potential, or economics of this prospect.

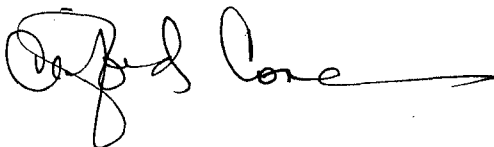

Although I know that it is probably an imposition for you to go through the process of force pooling my interests, I consider this to be my best option. To be honest with you, I do not know the penalties for being force pooled, but I doubt that they would any worse than any offer that I might receive from Mewbourne.

Furthermore, I will doubt that I will be the only one with interests in this subject well whom will be force pooled, so you will still have to go through the force pooling process

If you can make a convincing argument to the contrary, I would be willing to listen. Otherwise, I will simply let you force pool my interests for both the Clifford Cone Family Trust and for Clifford Cone, individually.

Since I travel often, I would suggest that you contact me by e-mail, if you want to communicate with me in a more-timely manner.

Sincerely,

A handwritten signature in black ink, appearing to read "Clifford Cone", followed by a long horizontal line extending to the right.

Clifford Cone

Dear Mr. Cone:

Reference is made to my previous letter dated October 26, 2010 (see copy enclosed) whereby Mewbourne Oil Company as Operator proposed drilling the captioned well at the referenced surface location (SL) to the proposed bottom hole location (BHL) to evaluate the Second Bone Spring Sand interval in the Bone Spring formation. To date you have not responded to our well proposal or offer to acquire a term assignment of your individual interest and the interest of the Children's Trust you represent.

Regarding the above, please respond to our proposal at your earliest convenience so we can avoid the necessity of having to force pool your interest. In the event our offer is unacceptable, please advise me of what terms would be acceptable regarding our offer to acquire the term assignment and I'll see what I can do to accommodate your counter proposal.

Sincerely yours,

MEWBOURNE OIL COMPANY

510' FNL & 330' FEL (BHL)  
Section 29, T18S, R30E  
Eddy County, New Mexico

Dear Mr. Cone:

Mewbourne Oil Company ("Mewbourne") as Operator hereby proposes to drill the captioned well at the referenced surface location (SL) to the referenced bottom hole location (BHL) to a true vertical depth (TVD) of approximately 8,200 feet subsurface to evaluate the Second Bone Spring Sand interval in the Bone Spring formation for oil production. The proposed well will have a horizontal measured depth (MD) of approximately 13,200 feet. The N/2N/2 of the captioned Section 29 will constitute the Project Area and oil proration unit.

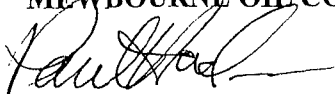

Enclosed for your consideration in the event you elect to participate in the proposed well is our AFE dated September 27, 2010. Public records indicate you own an undivided 20% interest (8 net acres) and the Trust created u/w/o and Codicil of Kathleen Cone fbo your children owns an undivided 10% interest (4 net acres) in the NE/4NE/4 of the captioned Section 29 as to rights below the base of the Queen formation. Accordingly, you own a 5.0% unit working interest and the Trust owns a 2.5% unit working interest in the proposed 160 acre Project Area. Should you elect to participate in the proposed well as to such interest, please sign and return one (1) copy of the enclosed AFE to me and I'll forward you our Operating Agreement for execution.

In the event you elect not to participate in the proposed well as to your interest and the Trust's interest, Mewbourne offers to purchase a Term Assignment of Operating Rights from you providing for a two (2) year primary term on the basis of \$400 per net acre whereby Mewbourne would be delivered an 80% net revenue interest, subject to proportionate reduction.

Regarding the above, you are encouraged to respond to our proposal in writing or you can call me at (432) 682-3715 or my email address is [phaden@mewbourne.com](mailto:phaden@mewbourne.com).

510' FNL & 330' FEL (BHL)  
Section 29, T18S, R30E  
Eddy County, New Mexico

Dear Ms.Shapira:

Reference is made to my previous letter dated October 26, 2010 whereby Mewbourne Oil Company ("Mewbourne") as Operator proposed drilling the captioned well (see copy enclosed). In the event Mr. Cone elected not to participate in the proposed well, Mewbourne offered to purchase a term assignment covering his interest in lieu of being force pooled.

The pooling case is to occur January 6, 2011 at an Examiner's Hearing in Santa Fe. We still would be interested in acquiring a term assignment of the Cone interest even after the pooling hearing occurs. I understand that Mr. Cone will be out of the country until May. We would be interested in acquiring a term assignment covering his interest upon his return.

Sincerely yours,

MEWBOURNE OIL COMPANY

510' FNL & 330' FEL (BHL)  
Section 29, T18S, R30E  
Eddy County, New Mexico

Dear Mr. Cone:

Mewbourne Oil Company ("Mewbourne") as Operator hereby proposes to drill the captioned well at the referenced surface location (SL) to the referenced bottom hole location (BHL) to a true vertical depth (TVD) of approximately 8,200 feet subsurface to evaluate the Second Bone Spring Sand interval in the Bone Spring formation for oil production. The proposed well will have a horizontal measured depth (MD) of approximately 13,200 feet. The N/2N/2 of the captioned Section 29 will constitute the Project Area and oil proration unit.

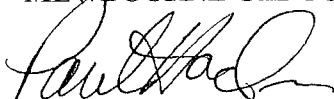

Enclosed for your consideration in the event you elect to participate in the proposed well is our AFE dated September 27, 2010. Public records indicate you own an undivided 10% interest (4 net acres) and the Trust created u/w/o and Codicil of Kathleen Cone fbo your children owns an undivided 10% interest (4 net acres) in the NE/4NE/4 of the captioned Section 29 as to rights below the base of the Queen formation. Accordingly, you and the Trust each own a 2.5% unit working interest in the proposed 160 acre Project Area. Should you elect to participate in the proposed well as to such interest, please sign and return one (1) copy of the enclosed AFE to me and I'll forward you our Operating Agreement for execution.

In the event you elect not to participate in the proposed well as to your interest and the Trust's interest, Mewbourne offers to purchase a Term Assignment of Operating Rights from you providing for a two (2) year primary term on the basis of \$400 per net acre whereby Mewbourne would be delivered an 80% net revenue interest, subject to proportionate reduction.

Regarding the above, you are encouraged to respond to our proposal in writing or you can call me at (432) 682-3715 or my email address is [phaden@mewbourne.com](mailto:phaden@mewbourne.com).

Re: Bradley "29" Federal Com #4H Well  
510' FNL & 150' FWL (SL)  
510' FNL & 330' FEL (BHL)  
Section 29, T18S, R30E  
Eddy County, New Mexico

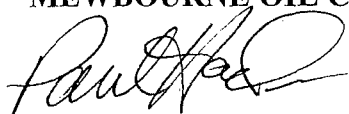

Dear Mrs. Cone:

Mewbourne Oil Company ("Mewbourne") as Operator hereby proposes to drill the captioned well at the referenced surface location (SL) to the referenced bottom hole location (BHL) to a true vertical depth (TVD) of approximately 8,200 feet subsurface to evaluate the Second Bone Spring Sand interval in the Bone Spring formation for oil production. The proposed well will have a horizontal measured depth (MD) of approximately 13,200 feet. The N/2N/2 of the captioned Section 29 will constitute the Project Area and oil proration unit.

Enclosed for your consideration in the event you elect to participate in the proposed well is our AFE dated September 27, 2010. Public records indicate the D.C. Trust owns an undivided 10% interest (4 net acres) in the NE/4NE/4 of the captioned Section 29 as to rights below the base of the Queen formation. Accordingly, you own a 2.5% unit working interest in the proposed 160 acre Project Area. Should you elect to participate in the proposed well as to such interest, please sign and return one (1) copy of the enclosed AFE to me and I'll forward you our Operating Agreement for execution.

In the event you elect not to participate in the proposed well as to your interest, Mewbourne offers to purchase a Term Assignment of Operating Rights from you providing for a two (2) year primary term on the basis of \$400 per net acre whereby Mewbourne would be delivered an 80% net revenue interest, subject to proportionate reduction.

Regarding the above, you are encouraged to respond to our proposal in writing or you can call me at (432) 682-3715 or my email address is [phaden@mewbourne.com](mailto:phaden@mewbourne.com).

Sincerely yours,

MEWBOURNE OIL COMPANY
