Application for Non-Standard Well Location
McEwen Gas Com D Well No. 1S
N/2 Section 05-T31N-R10W
Basin Fruitland Coal Pool
San Juan County, New Mexico

AP America Production Company respectfully requests an administrative approval for a non-standard well location for the McEwen Gas Com D Well No. 1S to be drilled at a location of 1075' FNL & 240' FWL of Section 05-T31N-R10W. The non-standard location is necessitated by topographical conditions and would insure the conservation of surface and subsurface resources in the area. Topographical obstructions within the legal drilling area are sever terrain - rough sloping terrain (side of cliff), County Road 2900, the Animas River, an irrigation ditch and the location of an existing building.

To aid in your review attached are a C-102 Well Location Plat showing the well location, a topographical map (APD Map # 1), a 9 section plat showing the offset wells and operators within the Fruitland Coal formation and copy of an Ariel photo with the well location indicated.

Attached is a listing of all offset operators who are being furnished a copy of this application via certified mail return receipt requested.

Your attention to this matter is greatly appreciated. Should you have any questions concerning this application please do not hesitate to call me at 281-366-4491.

Sincerely,

A handwritten signature in cursive script that reads "Mary Corley".
