In answer to your questions:

- 1) HKW owes an estimated \$9763 to date
- 2) \$136 in suspense from 4/02-4/03 for your ORRI
- 3) NM&O will consider a farmout limited to the bore hole with rights from the base of the Pictured Cliffs formation to the base of the Mesaverde formation.

Greg Owens:

As it appears to be difficult to coordinate our schedules to settle the matter of the interest of Hooper-Kimball-Williams in the N. Lindrith 23 #1 Well, I took the liberty of attaching a Farmout Agreement, offered and executed by other working interest owners, for your review.

If you are in agreement with this Farmout, as a way to settle this matter, please execute and return it to our office at your earliest convenience. However, if there are other issues or questions we can address via email to assist your company in the decision regarding the N. Lindrith WI, we would appreciate the opportunity to address those issues in this manner.

NM&O would like very much to complete our records regarding this interest before year-end. I am sure you can relate to that!

Thank you Greg,

Deborah - I am writing on behalf of Hooper, Kimball and Williams, Inc.  
regarding your letter of June 5, 2002.

Please tell me if NMO has enough interest and control of the unit perform  
the proposed operation. Since it has been over a year since I discussed the  
issue with Mr. Sweet, I assume that the proposal from McDermott is now  
invalid and will have to be re-circulated. Please update me as to the  
status of the entire project.

RE: North Lindrith #23-1  
E/2 Section 23-T25N-R2W  
Rio Arriba Co., NM

Dear Mr. Owens:

On March 12, 2001, W. H. McDermott, on behalf of NM&O Operating Company ("NM&O"), mailed a certified letter to Hooper, Kimball & Williams ("H-K-W"), as a working interest owner, proposing a re-entry of the N. Lindrith #23-1 Well for the purpose of completing and testing the Mesaverde formation. An Authority For Expenditure ("AFE") in the amount of \$167,023 for the proposed work and a Joint Operating Agreement ("JOA") covering operations in the Mesaverde formation in the E/2 of Section 23 were enclosed for your review and return to our office. On July 23, 2001, Mr. Sweet, of this office, discussed this matter with you also. It was his understanding that a Farmout Agreement covering H-K-W interests would be preferable in lieu of H-K-W participating in this project.

Pursuant to public records, H-K-W owns 13.3 acres under the E/2 320-acre Mesaverde spacing unit. Therefore, NM&O would like to request a Farmout Agreement from H-K-W for this acreage. We have enclosed a Farmout Agreement for your execution and return to our office. H-K-W would reserve an ORRI equal to the difference between existing leasehold burdens and 23% free of all costs, except taxes, in and to H-K-W lease in the E/2 of Section 23-T25N-R2W and would deliver a 77% net revenue interest to NM&O.

We would appreciate your prompt response to this matter.

Sincerely,

Deborah Greenwich  
Landman
