RE: NMOCC Allowable Hearing Scheduled September 22, 1994
Proposed Indian Basin Upper Penn Pool Allowable

Dear Mr. Lemay:

Oryx Energy Company respectfully supports an acreage allocation factor of 200,000 mcf per month for the Indian Basin Upper Penn Pool covering the period of October 1994 – March 1995. This reflects the same approximate allocation factor that the Commission granted in the past three allowable periods.

Oryx estimates its wells can produce 782,000 mcf per month in the October through March 1995 period provided that each well produces the full term at its current rate. As the attached memo states, our gas marketing division assures us that they have a market for the proposed volume.

Therefore, Oryx urges the Commission to approve the allocation factor of 200,000 mcf per month in its upcoming Indian Basin allowable hearing.

Sincerely,

Mark A. Peavy
Operations Engineer
