Re: Application of Bonneville Fuels Corporation for Compulsory Pooling and an Unorthodox Well Location, Lea County, New Mexico

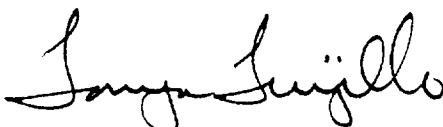

Dear Mr. Mason:

This letter is to advise you that Bonneville Fuels Corporation has filed the enclosed application with the New Mexico Oil Conservation Division seeking the force pooling of all mineral interests in all formations developed on 80-acre spacing to the base of the Atoka formation, in and under the W/2 SW/4 of Section 13, Township 17 South, Range 37 East, N.M.P.M., Lea County, New Mexico. Bonneville Fuels Corporation proposes to dedicate the referenced pooled unit to its Norris #4 well to be located at an unorthodox location 710 feet from the South line and 330 feet from the West line of said Section 13.

This application has been set for hearing before a Division Examiner on June 29, 1995. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,
