Dear Sirs and Mesdames:

Both of us signing this letter have received notification of Bonneville Fuels Corporation's application for compulsory pooling and an unorthodox well location in Lea County (W/2 SW4 of Section 13, Township 17 South, Range 37 East, N.M.P.M., Lea County, N M) and write to protest approval of such application by the New Mexico Conservation Division.

We are willing to negotiate a lease of mineral rights on our property, but object to your current proposal.

yours truly,
