**STATEMENT OF CASE**

APPLICANT

(Please make a concise statement of what is being sought with this application and the reasons therefore.)

Texaco Exploration and Production Inc., applicant in the above-styled cause, seeks to initiate a high angle/horizontal directional drilling pilot project in the West Lindrith Gallup-Dakota Oil Pool underlying the (S/2 of Section 21, Township 25 North, Range 5 West, to form a non-standard 320-acre oil spacing and proration unit for said pool. The applicant proposes to re-complete the existing Jicarilla "C" Well No. 35, located at a standard surface location 1850 feet from the South line and 1190 feet from the West line (Unit L) of said Section 21, by kicking off from vertical in an easterly direction commencing to build angle at an appropriate rate to horizontally traverse the proposed producing area. Further, the applicant seeks the promulgation of special operating rules and procedures therefor including the designation of a target window such that the horizontal or producing portion of the wellbore shall be no closer than 790 feet to the outer boundary of the project area. The applicant also requests the assignment of a special project allowable for the proposed oversized oil spacing and proration unit to be simultaneously dedicated to both the Jicarilla "C" Well No. 35 and to the Jicarilla "C" Well No. 26, located at a standard oil well location 1850 feet from the South line and 790 feet from the East line (Unit I) of said Section 21.

OTHER PARTY

(Please make a concise statement of the basis for opposing this application or otherwise state the position of the party filing this statement.)

**PROPOSED EVIDENCE**

APPLICANT

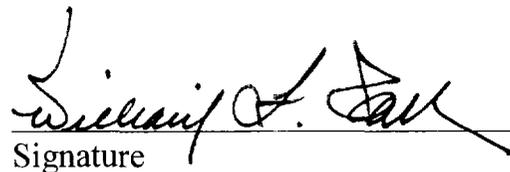

WITNESSES (Name and expertise)	EST. TIME	EXHIBITS
Chuck Snure, Landman	10 Min.	Approximately 4
Gary G. Oberhansley, Geologist	10 Min.	Approximately 1
Philip W. Smith, Petroleum Engineer	10 Min.	Approximately 4
