RE: Prorated Gas Allowable for October, 1995 through March, 1996 Period
Jalmat Gas Pool
Lea County, New Mexico

Dear Mr. LeMay,

Marathon Oil Company operates seven active wells in the Jalmat Gas Pool. Although we will not present testimony at the August 3, 1995 hearing, we would like to express our position regarding the proposed gas allowable for the Jalmat Gas Pool.

Marathon Oil Company supports the proposed acreage allocation factor of 18,300 MCF per month. We believe this will permit equitable sharing between the owners in the gas pool based on the present production capacity of the producers in the pool. This allowable will protect the current income of those operators who have made investments to obtain production increases.

Sincerely yours,

A handwritten signature in cursive script, appearing to read 'T. N. Tipton'.
