RE: Temporarily Abandoned Wells
Palmer #1, 17-29N-13W

To Whom It May Concern:

Our records indicate that the above wells are inactive and require P&A or TA approval under Rules 201, 202 and 203. Please review your records and contact this office indicating the current status of these wells. Plans to bring these wells into compliance are to be submitted by June 1, 1993 and work completed by December 31, 1993. Rule 203 requires that a notice of intent to temporarily abandon a well be submitted on a Sundry Notice (OCD form C-103), and that a mechanical integrity test (MIT) be conducted on the casing prior to final approval. If there is a notice of intent to P&A filed and approved for these wells, the work is to be completed by December 31, 1993.

If you have any questions, please feel free to contact this office.

Yours truly,

Dianna K. Fairhurst

We plan to run 1200' of 1 1/4" tubing in well, with 1 1/4" bottom hole pump. We will pump well through tubing and vent gas through the casing. We will do this approximately 28 days if by this time we should know if the well is commercial. If the well is commercial we will Test well and hook up. If the well is not commercial we will request to plug and abandon. All work should be completed by December 15, 1982.

Re: Palmer #1 G-17-29N-13W

Dear Ralph:

It has been over a year since we first directed that you file a request for temporary abandonment of the referenced well, with no response. Also, a recent field inspection found that there is no well sign at the well. If these situations are not remedied within five days we will take necessary action.

If you have any questions, please contact this office.

Re: Abbott Ventures

Dear Jeff:

I recommend that we file suit against the referenced operator to collect fines for the following violations.

- 1) Rule 101. The operator has reentered a well on state land without the required bond.
- 2) Rule 1101. The operator reentered the well without the required permit.

The well in question is the Northeast Hogback State of N.M. #1, A-16-30N-16W.

Sincerely,

Frank T. Chavez
District Supervisor

We plan to run 1200' of 1 1/4" tubing in well, with 1 1/4" bottom hole pump. We will pump well through tubing and vent gas through the casing. We will do this approximately 28 days if by this time we should know if the well is commercial. If the well is commercial we will Test well and hook up. If the well is not commercial we will request to plug and abandon. All work should be completed by December 15, 1982.

Re: Palmer # 1G~~8~~-17-29N-13W

Dear Frank;

We will have the above subject well on the line by the 15th of April, 1984. This date can be completed by us but if Southern Union or Foutz & Bursum and or City of Farmington, Utility hold us up it will be out of our control.

Southern Union, Roswell office and our office are about to finalize the contract. We still have to settle who will pay for the hookup on the well.

I will get a sign and put it up. We have lost three well signs to this date, some one must be building a house.

Frank, thank you very much for your patience.

Yours Truly,

Ralph Abbott
