P. O. Box 1720  
Artesia, New Mexico 88211-1720

Attention: James E. Haas

*RE: Administrative application of Mewbourne Oil Company ("Mewbourne") for an unorthodox gas well location within a standard 320-acre gas spacing and proration unit comprising the W/2 of Section 35, Township 18 South, Range 28 East, NMPM, Eddy County, New Mexico in the North Turkey Track-Morrow Gas Pool for its proposed Scanlon Draw "35" State Well No. 1 to be drilled 660 feet from the South line and 1980 feet from the West line (Unit N) of said Section 35.*

Dear Mr. Hansen:

The subject application was filed with the Division on December 5, 1996, your letter of objection dated December 20, 1996 (see copy attached) was received by the Division on December 27, 1996, or 22 calendar days after the official filing date of the Mewbourne application. Pursuant to Division General Rule 104.F(4):

*"The applicant shall submit a statement attesting that applicant, on or before the same date the application was submitted to the Division, has sent notification to the affected parties by submitting a copy of the application, including a copy of the plat described in Rule 104.F(3) above by certified or registered mail-return receipt in accordance with Rule 1207(A)(5) advising them that if they have an objection it must be filed in writing within twenty days from the date notice was sent. The Division Director may approve the unorthodox location upon receipt of waivers from all said parties or if no said party has entered an objection to the unorthodox location within 20 days after the Director has received the application."*

Losee, Carson, Haas & Carroll, P.A.  
December 27, 1996  
Page 2

---

Your objection on behalf of Bass Enterprises Production Company and Santa Fe Energy Company was received too late for the Division to take any action in either delaying or denying Mewbourne's request. An order approving this application is being processed at this time and will be forthcoming.

Should Williams Production Company wish to pursue this matter further, an application to rescind this order through the Examiner's hearing process can be filed by William Production Company as the applicant.

Sincerely,

Michael E. Stogner  
Chief Hearing Officer/Engineer

Re: Protest to Application of Mewbourne Oil Company for  
Administrative Approval of Unorthodox Well Location for  
the Scanlon Draw "35" State No. 1 Well, 660' FSL 1980' FWL  
of Section 35, T-18-S, R-28-E, N.M.P.M., Eddy County, New  
Mexico

Dear Sir:

This is to notify you that we are filing a protest on behalf of Bass Enterprises Production Co. ("Bass") and Santa Fe Energy Company ("Santa Fe") to the application for administrative approval of the captioned well. Bass is the operator of and a leasehold owner in a Morrow well located in the E/2 of Section 2, Township 19 South, Range 28 East. Santa Fe is a leasehold owner in the proration unit for the same well.

The grounds for this protest are that the location requested would adversely impact the correlative rights of Bass and Santa Fe and would give the applicant an unfair advantage as to geologic location, permitting Mewbourne to produce gas from under the lands contained within the proration unit for protestants' well in violation of their correlative rights. The protestants further aver that the geology of the Morrow formation in this area is such that the applicant could drill a well at a legal location in the W/2 of Section 35 and obtain its fair share of production therefrom. The granting of this application would be in violation of the rules and regulations of the Division.

For the reasons set out above, Bass and Santa Fe do protest the administrative approval of the well location applied for and respectfully request that the Division set this matter for a hearing before an examiner on the first available hearing date.

Mr. William J. LeMay, Director

Re: Protest to Application of Mewbourne Oil Company for  
Administrative Approval of Unorthodox Well Location for  
the Scanlon Draw "35" State No. 1 Well, 660' FSL 1980' FWL  
of Section 35, T-18-S, R-28-E, N.M.P.M., Eddy County, New  
Mexico

Dear Sir:

This is to notify you that we are filing a protest on behalf of Bass Enterprises Production Co. ("Bass") and Santa Fe Energy Company ("Santa Fe") to the application for administrative approval of the captioned well. Bass is the operator of and a leasehold owner in a Morrow well located in the E/2 of Section 2, Township 19 South, Range 28 East. Santa Fe is a leasehold owner in the proration unit for the same well.

The grounds for this protest are that the location requested would adversely impact the correlative rights of Bass and Santa Fe and would give the applicant an unfair advantage as to geologic location, permitting Mewbourne to produce gas from under the lands contained within the proration unit for protestants' well in violation of their correlative rights. The protestants further aver that the geology of the Morrow formation in this area is such that the applicant could drill a well at a legal location in the W/2 of Section 35 and obtain its fair share of production therefrom. The granting of this application would be in violation of the rules and regulations of the Division.

For the reasons set out above, Bass and Santa Fe do protest the administrative approval of the well location applied for and respectfully request that the Division set this matter for a hearing before an examiner on the first available hearing date.

Mr. William J. LeMay, Director

**Attention: William F. Carr**

*Administrative Order NSL-3745*

Dear Mr. Carr:

Reference is made to your application on behalf of the operator, Mewbourne Oil Company, dated December 5, 1996, for approval to drill its Scanlon Draw "35" State Well No. 1 at an unorthodox gas well location to test the Morrow formation 660 feet from the South line and 1980 feet from the West line (Unit N) of Section 35, Township 18 South, Range 28 East, NMPM, North Turkey Track-Morrow Gas Pool, Eddy County, New Mexico. The W/2 of said Section 35 shall be dedicated to the well to form a standard 320-acre gas spacing and proration unit for said pool.

The geologic interpretation submitted with this application indicates that a well drilled at the proposed unorthodox gas well location will be at a more favorable geologic position within the Morrow formation than a well drilled at a location considered to be standard.

The application has been duly filed under the provisions of Rule 104.F of the General Rules and Regulations of the New Mexico Oil Conservation Division ("Division"), revised by Division Order No. R-10533, issued by the Oil Conservation Commission in Case 11,351 on January 18, 1996.

By the authority granted me under the provisions of Division General Rule 104.F(2), the above-described unorthodox gas well location is hereby approved.

Sincerely,

  
William J. LeMay  
Director

Re: *Application of Mewbourne Oil Company for Administrative Approval of an Unorthodox Well Location for its Scanlon Draw "35" State No. 1 Well, 660 feet from the South line and 1980 feet from the West line of Section 35, Township 18 South, Range 28 East, N.M.P.M., Eddy County, New Mexico.*

Dear Mr. LeMay:

Mewbourne Oil Company hereby seeks administrative approval pursuant to the provisions of Division Rule 104 F (2) adopted on January 18, 1996, of an unorthodox well location for its Scanlon Draw "35" State No. 1 Well to be drilled at an unorthodox well location 660 feet from the South line and 1980 feet from the West line Section 35, Township 18 South, Range 28 East, N.M.P.M., Eddy County, New Mexico.

This location in the Morrow formation, North Turkey Track-Morrow Field, is unorthodox for geological reasons. Attached hereto as Exhibits A and B are a Lower Morrow Gross "Orange" Sandstone Isopach Map and a summary of the reasons supporting Mewbourne's requested unorthodox well location.

William J. LeMay, Director  
Oil Conservation Division  
New Mexico Department of Energy,  
Minerals and Natural Resources  
December 5, 1996  
Page 2

Attached hereto as Exhibit C is a plat showing the subject spacing unit, the proposed unorthodox well location, the offsetting wells and the diagonal and adjoining spacing units.

Exhibit D hereto is a list of the parties affected by this application. On this date, a copy of this application, including the plat described in Rule 104 F (3), was provided to each of the affected parties as required by Division Rule 104 F (4) by certified mail advising each that if they have an objection to this location it must be filed in writing with the Division's Santa Fe office within twenty days from the date this notice was mailed.

Your attention to this application is appreciated.

Very truly yours,

WILLIAM F. CARR

NORTH TURKEY TRACK (MORROW) FIELD  
SCANLON DRAW PROSPECT  
Section 35(N)-T18S-R28E  
Eddy County, New Mexico

## UNORTHODOX DRILLSITE RECOMMENDATION:

The Lower Morrow "Orange" Sand is the primary objective for this 11,200' test. Stratigraphically the "Orange" Sand is located approximately 50' below the base of the Lower Morrow shale and is interpreted to be in a "channel sand" deposition facies. It is a significant gas producer in this area.

This will be a west-half (stand-up) proration unit and it is critical that the drillsite be located 660' FSL and 1980' FWL, Unit (N), Section 35, T18S-R28E. The east-half (Morrow) proration unit is dedicated to Anadarko Production Company's State "AC" Corn. #1 located in unit (H), Section 35, T18S-R28E. Accordingly, an unorthodox location will be required to test this prospect.

The Lower Morrow Gross "Orange" Sand Isopach Map clearly illustrates the need for this unorthodox location. Morrow tests are the only wells shown on this map and the "Orange" Sand producers are indicated as such. The test well is an attempt to extend "Orange" Sand production to the northwest from the Bass Enterprise Production - Turkey Track "2" Well #1 located in Section 2(H), T19S-R28E.

Our interpretation suggests maximum "Orange" Sand development (approximately 40') at this unorthodox drillsite. Anadarko Production Company's New Mexico "AA" State #1 located in 35(F) was drilled in 1978 and has only 8' of gross "Orange" Sand. It was originally completed as a "Orange" Sand producer for 4.5 MMCFGPD and produced until it was **plugged back** in 1981 after producing (0.487 BCF and 2,522 barrels). This well is now operated by Xeric Oil & Gas Company and produces only from the Queen-Grayburg-San Andres section.

Our interpretation indicates that maximum "Orange" Sand thickness should be developed at this unorthodox location. The nearest orthodox location (1650' FSL and 1980' FWL) would encounter significantly less "Orange" Sand (approximately 28') and would compromise the economics of the test.

It is critical that the drillsite be located 660' FSL and 1980' FWL.

Gentlemen:

Enclosed is a copy of the above-referenced application which was filed with the Oil Conservation Division on this date by Mewbourne Oil Company for administrative approval of an unorthodox well location for its proposed Scanlon Draw "35" State Well No. 1 to be drilled 660 feet from the South line and 1980 feet from the West line of Section 35, Township 18 South, Range 28 East, N.M.P.M., Eddy County, New Mexico.

As the owner of an interest which will be affected by the proposed well, you may object to this application. Objections must be filed in writing at the Division's Santa Fe office within twenty days from the date this notice was sent. If no objection is received within twenty days after the Division Director receives this application, the unorthodox location may be approved.

Very truly yours,

WILLIAM F. CARR

Re: *Application of Mewbourne Oil Company for administrative approval of an unorthodox well location for its Scanlon Draw "35" State Well No. 1, 660 feet from the South line and 1980 feet from the West line of Section 35, Township 18 South, Range 28 East, N.M.P.M., Eddy County, New Mexico.*

Gentlemen:

Enclosed is a copy of the above-referenced application which was filed with the Oil Conservation Division on this date by Mewbourne Oil Company for administrative approval of an unorthodox well location for its proposed Scanlon Draw "35" State Well No. 1 to be drilled 660 feet from the South line and 1980 feet from the West line of Section 35, Township 18 South, Range 28 East, N.M.P.M., Eddy County, New Mexico.

As the owner of an interest which will be affected by the proposed well, you may object to this application. Objections must be filed in writing at the Division's Santa Fe office within twenty days from the date this notice was sent. If no objection is received within twenty days after the Division Director receives this application, the unorthodox location may be approved.

Very truly yours,

WILLIAM F. CARR
