Re: Statutory Unitization

MYERS LANGLIE MATTIX UNIT  
ROYALTY INTEREST OWNERS:

Please refer to our letter of September 15, 1980. We have received ratifications from owners of over 99% of the royalty interests and working interests. The New Mexico Oil Conservation Commission Order No. R-6447 is now in force effective January 1, 1981.

The statutory unitization will improve unit operating efficiency and increase ultimate recovery. We appreciate your cooperation in bringing about this action which will benefit every royalty interest owner in the unit.

Sincerely,

Raymond W. Blohm  
District Production Manager
