Re: Case No. 11929, Order No. R-4430-B
Application of Mobil Exploration & Producing TX & NM Inc.

Dear Mr. Stogner:

Upon review of Order No. R-4330-B in the referenced case, Mobil noted several clerical errors that, although minor, could cause confusion when the Order is implemented. In order to correct these errors, a Motion to Revise Order and a proposed Nunc Pro Tunc Order is enclosed for your consideration. Please contact me if you have any questions about Mobil's proposed revisions.

Your consideration in this matter is appreciated.

Sincerely,

Edmund H. Kendrick

MOTION TO REVISE ORDER

COMES NOW, the Applicant Mobil Exploration & Producing TX & NM Inc.
("Mobil"), by and through its attorneys, Montgomery & Andrews, P.A., and moves the Oil
Conservation Division for an order revising Order No. R-4430-B entered in this case by the
Division on August 25, 1998. As reasons therefor, Mobil states as follows:

1. Upon review of Order No. R-4430-B, Mobil noted several drafting errors.
2. Paragraph 13 of the findings section and paragraph 7 of the order section contain a description of the EOR Expansion Area that is internally inconsistent and does not match the location of the eight producing wells within the EOR Expansion Area.
3. Paragraph 29 of the findings section and paragraph 4 of the order section refer to Exhibits "A" and "C" that do not exist.
4. These drafting errors, although minor, could cause confusion when Order No.

R-4430-B is implemented.

5. The revisions set forth in Attachment A to this Motion would correct these drafting errors.

WHEREFORE, Mobil respectfully requests that the Oil Conservation Division issue an order revising Order No. R-4430-B as set forth in Attachment A to be effective August 25, 1998.

Respectfully submitted,

MONTGOMERY & ANDREWS, P.A.
