Mr. Michael E. Stogner
Oil Conservation Division
2040 South Pacheco
Santa Fe, NM 87501

Dear Mr. Stogner:

Texaco Exploration and Production Inc. hereby requests administrative approval of the following 160-acre non-standard proration unit:

E. H. B. Phillips "C" #2
E/2 NE/4 (Unit H) Section 10, T-20-S, R-37-E
Lea County, New Mexico
Skaggs Abo Pool

The necessity for the formation of the subject non-standard spacing unit and the reason why a standard spacing unit is not feasible are:

- 1) This was drilled as an oil well in the SE/4 NE/4 of Section 10, T-20-S, R-37-E, Lea County, New Mexico. The Operating Agreement had expired so we entered into a new O/A with BK Exploration and J. Hiram Moore, Ltd. The agreement covered depths below the Queen formation in the E/2 NE/4. The O/A covers 80 acres because the ownership is common.
- 2) We prefer to do a non-standard spacing unit because the ownership in the W/2 NE/4 is different. Texaco Exploration and Production Inc. owns 75% and BK Exploration owns 25%. J. Hiram Moore does not have an interest. In the E/2NE/4 Texaco owns 50%, BK owns 25% and J. Hiram Moore owns 25%. Bk Exploration did not want to join in the well so we farmed in their interest to give Texaco 75% until payout.
- 3) If we have a standard spacing unit (160 acres), then we do not have an operating agreement in place. J. Hiram Moore's interest in a very good new commercial well will be cut in half and we will have to negotiate a new deal with BK Exploration.

A copy of the Form C-102 for the subject well is attached. The subject acreage is in the Skaggs Abo Pool, which provides for 160-acre spacing. Rule 3 of the Special Rules and Regulations for the pool allows administrative approval of non-standard

160-acre units upon notice to all offsetting operators. Notice of this application has been given by certified mail to the offset operators shown on the attached list.

We look forward to receiving your approval and please call me at (915) 688-4606 with any questions.

Yours truly,
