CASE NO. 11983

APPLICATION

NEARBURG EXPLORATION COMPANY, L.L.C. ("Nearburg"), through its undersigned attorneys, hereby makes application pursuant to the provisions of NMSA 1978, Section 70-2-17, for an order pooling all mineral interests in all formations developed on 320-acre spacing in the W/2, in all formations developed on 160-acre spacing in the NW/4, in all formations developed on 80-acre spacing under the W/2 NW/4, and in all formations developed on 40-acre spacing under the SW/4 NW/4 of Section 4, Township 20 South, Range 25 East, NMPM, Eddy County, New Mexico, and in support thereof states:

1. Nearburg is a working interest owner in the W/2 of Section 4 and has the right to drill thereon.
2. Applicant proposes to dedicate the above-referenced spacing or proration unit to its Culver 4 Federal Com Well No. 1 to be drilled to a standard location 1650 feet from the North line and 660 feet from the West line of said Section 4, to a depth sufficient to test any and all formations to the base of the Morrow formation, Cemetery-Morrow Gas Pool.
3. Applicant has sought and been unable to obtain either a voluntary agreement from Feagan Energy, Inc., Post Office Box 50307, Midland, Texas 79710 owner of a 12.5%

working interest in the subject spacing units.

4. Said pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

5. In order to permit the Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all mineral interests should be pooled, and Nearburg Producing Company, should be designated the operator of the well to be drilled.

WHEREFORE, Applicant prays that this application be set for hearing before an Examiner of the Oil Conservation Division on June 11, 1998 and, after notice and hearing as required by law, the Division enter its order pooling the lands, including provisions for Applicant to recover its costs of drilling, equipping and completing the well, its costs of supervision while drilling and after completion, including overhead charges, and imposing a risk factor for the risk assumed by the Applicant in drilling, completing and equipping the well.

Respectfully submitted,
