I hope we can reach agreement on either of the above proposals. However, if we can't reach agreement I will have no other option than to apply for forced pooling. The New Mexico forced pooling statute allows any working interest owner to go before the Oil Conservation Division, and force the other working interest owners to either participate in a well or be subject to a non-consent penalty. With the high degree of risk in a deeper well with an offset dry hole the usual penalty is 300%. This means you will not receive any money until I receive three times the well cost or about \$1,800,000. At that time you will revert to your original 25% working interest and 18.75% net revenue interest. You will then be obligated to pay your share of operating expenses and any other work that occurs on the lease.

This letter will serve as the official notice under the New Mexico forced pooling statute, 26 days after which our application will be filed.

Thank you for your consideration.

Dear Mr. & Mrs. Hansen;

Enclosed is a second AFE for \$857,000 to drill and equip a horizontal well in the Abo formation (7050'), at a location 2310' FWL and 1650' FNL, Section 16, T20S, R37E, Lea County NM. There have been operators in the area drilling horizontal wells in a variety of formations. The horizontal wells seem to be more efficient at recovering more oil and gas. This option is also cheaper than drilling two wells. I will propose this along with an alternative option to drill a vertical well that I sent you an AFE on September 17<sup>th</sup> 1998. My check of the records indicates you have a 25% working interest in this 80 acres. Your participation in this well would amount to an estimated expenditure of \$214,250. I would be happy to have you as a working interest partner. If you wish to participate, please sign and return one copy of the enclosed AFE and keep the other copy for your files.

As an alternative to participating I would propose to buy your 25% lease in the above referenced 40 acres as mentioned in my previous letter to you dated September 9, 1998. I hereby submit a ☐ overriding royalty interest (proportionately reduced) along with a purchase offer of ☐ per acre for your net 10 acres (below 7000') which amounts to ☐.
