OFFSET OPERATORS

VACUUM GLORIETA WEST UNIT HORIZONTAL INJECTION PROJECT
VACUUM GLORIETA FIELD
LEA COUNTY, NEW MEXICO

Gentlemen:

It is our intent to commence injection into horizontal injection wells in the south end of the Vacuum Glorieta West Unit. The project area is designated on the attached map.

To date one horizontal well (Well No. 108) has been drilled and placed on injection. Texaco will be applying for a permanent authority to inject into this well and any other injection well in the project area at a hearing before the New Mexico Oil Conservation Division on February 4, 1999.

This information is being supplied to you, as an offset operator, as required by the NMOCD for any operator within one-half mile of any proposed injector. If you have any questions, contact Kevin F. Hickey at (915) 688-2950.

Very truly yours,

C. E. Sadler / KFH
