APPLICATION OF SHACKLEFORD OIL
COMPANY FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.

Case No. 12,163

APPLICATION OF SHACKLEFORD OIL
COMPANY FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.

Case No. 12,164

APPLICATION OF SHACKLEFORD OIL
COMPANY FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.

Case No. 12,165

MOTION TO DISMISS

Samson Resources Company ("Samson") moves the Division for an order dismissing the above applications, and in support thereof, states:

1. The above applications were filed by Shackleford Oil Company ("Shackleford") on or about March 23, 1999, and were originally scheduled for the April 15, 1999 Examiner hearing. The applications are currently set on the April 29, 1999 docket.

2. Samson owns working interests in the three well units which are the subject of the above applications. Affidavit of Jay Miller, ¶3 (attached hereto as Exhibit A).

3. Compulsory pooling is permissible where there are undivided interests in a well spacing unit. NMSA 1978 §70-2-17.C (1996). However, the operator of a proposed well must make a good faith effort to obtain the voluntary joinder of the interest owners in the well. NMSA 1978 §70-2-18 (1996). The Division has held, in a number of cases, that this requirement is only met by an operator sending a proposal letter for a specific well, with an AFE enclosed, at least 30 days before a pooling application is filed,

together with follow-up discussions among the parties.

4. Shackleford did not send proposal letters to Samson regarding the subject wells until after the applications were filed. In fact, Samson did not receive well proposals until April 20, 1999, which is after the original hearing date. **Exhibit A, ¶4.**

5. As a result of the foregoing, Shackleford did not comply with statutory requirements and Division policy on compulsory pooling, and the above applications must be dismissed to allow time for good faith negotiations among the interest owners in the proposed wells.

WHEREFORE, Samson requests that the above applications be dismissed.
