CASE NO. _____

OIL CONSERVATION DIV.
99 MAY 18 AM 8:27

APPLICATION

Shackelford Oil Company ("Shackelford"), through its undersigned attorneys, hereby makes application pursuant to the provisions of NMSA 1978, Section 70-2-17, for an order pooling all mineral interests in all formations from the surface to the base of the Delaware formation in the NE/4 SE/4 of Section 3, Township 20 South, Range 33 East, N.M.P.M., Lea County, New Mexico, and in support thereof states:

1. Shackelford is a working interest owner in the NE/4 SE/4 of said Section 3 and has the right to drill thereon.
2. Shackelford proposes to dedicate the above-referenced spacing or proration unit to a well to be drilled at a standard location in the NE/4 SE/4 of said Section 3, to a depth sufficient to test any and all formations and/or pools from the surface to the base of the Delaware formation developed on 40-acre spacing which presently includes but is not necessarily limited to the Undesignated Teas Yates-Seven Rivers Pool and the Undesignated West Teas Yates-Seven Rivers Pool.
3. Applicant has sought and been unable to obtain either voluntary agreement for pooling or farmout from certain interest owners in the subject spacing units identified on

Exhibit A to this application.

4. Said pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

5. In order to permit the Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all mineral interests should be pooled, and Shackelford Oil Company should be designated the operator of the well to be drilled.

WHEREFORE, Shackelford Oil Company requests that this application be set for hearing before an Examiner of the Oil Conservation Division on June 10, 1999, and, after notice and hearing as required by law, the Division enter its order pooling the lands, including provisions for Shackelford to recover its costs of drilling, equipping and completing the well, its costs of supervision while drilling and after completion, including overhead charges, and imposing a risk factor for the risk assumed by Shackelford in drilling, completing and equipping the well.

Respectfully submitted,
