Re: *Administrative application dated June 3, 1999 for an unorthodox off-pattern Basin-Fruitland Coal gas well location for the proposed Oxnard "WN" Federal Well No. 13 (API No. 30-045-29914) to be drilled 1640 feet from the North line and 1160 feet from the West line (Unit E) of Section 14, Township 27 North, Range 8 West, NMPM, San Juan County, New Mexico.*

Dear Mr. Bayless:

The subject application failed to prove that this unorthodox gas well location is necessary. In order to provide Robert L. Bayless, Producer L.L.C. the opportunity to protect the W/2 of Section 14 from offset drainage and to assure the prevention of waste in the Basin-Fruitland Coal (Gas) Pool this application will be docketed for hearing before a Division Hearing Examiner. At that time detailed geological and reservoir engineering data can be presented in a sufficient manner to adequately support your application.

This matter will appear on the next available docket scheduled for July 22, 1999. Please provide adequate notice pursuant to Rule 1207.A(5) of the Division's Rules and Regulations.

Sincerely,

Michael E. Stogner  
Chief Hearing Officer/Engineer

Case 12218

Gentlemen:

Robert L. Bayless, Producer LLC requests administrative approval of an unorthodox Basin Fruitland Coal gas well. We plan to drill the Oxnard WN Federal #13 at 1640 FNL & 1160 FWL in Section 14, T27N, R8W. The acreage dedicated to this well is the 320 acres in the west half of Section 14. This location is non-standard since a west half well should be located in the southwest quarter. As you can see on the attached map, the offset wells have been drilled on irregular spacing and the well will attain better drainage if located in the northwest quarter.

Enclosed with this request you will find a map showing the existing offsetting wells to our proposed well, along with the Fruitland Coal rights around it. Also enclosed is an acreage dedication plat for the Oxnard WN Federal #13 and copies of the letters which were sent to the offset leaseholders. As per NMOCD regulations, by copy of this letter to offset leaseholders, Robert L. Bayless, Producer LLC is asking offset leaseholders to waive any objection to this Basin Fruitland Coal unorthodox location.

I believe this request provides all the information required by NMOCD regulations for administrative approval of an unorthodox location. If any further information is needed, please contact me. Your prompt response to this request is appreciated.

Sincerely,

Price M. Bayless  
Engineer

Enc.

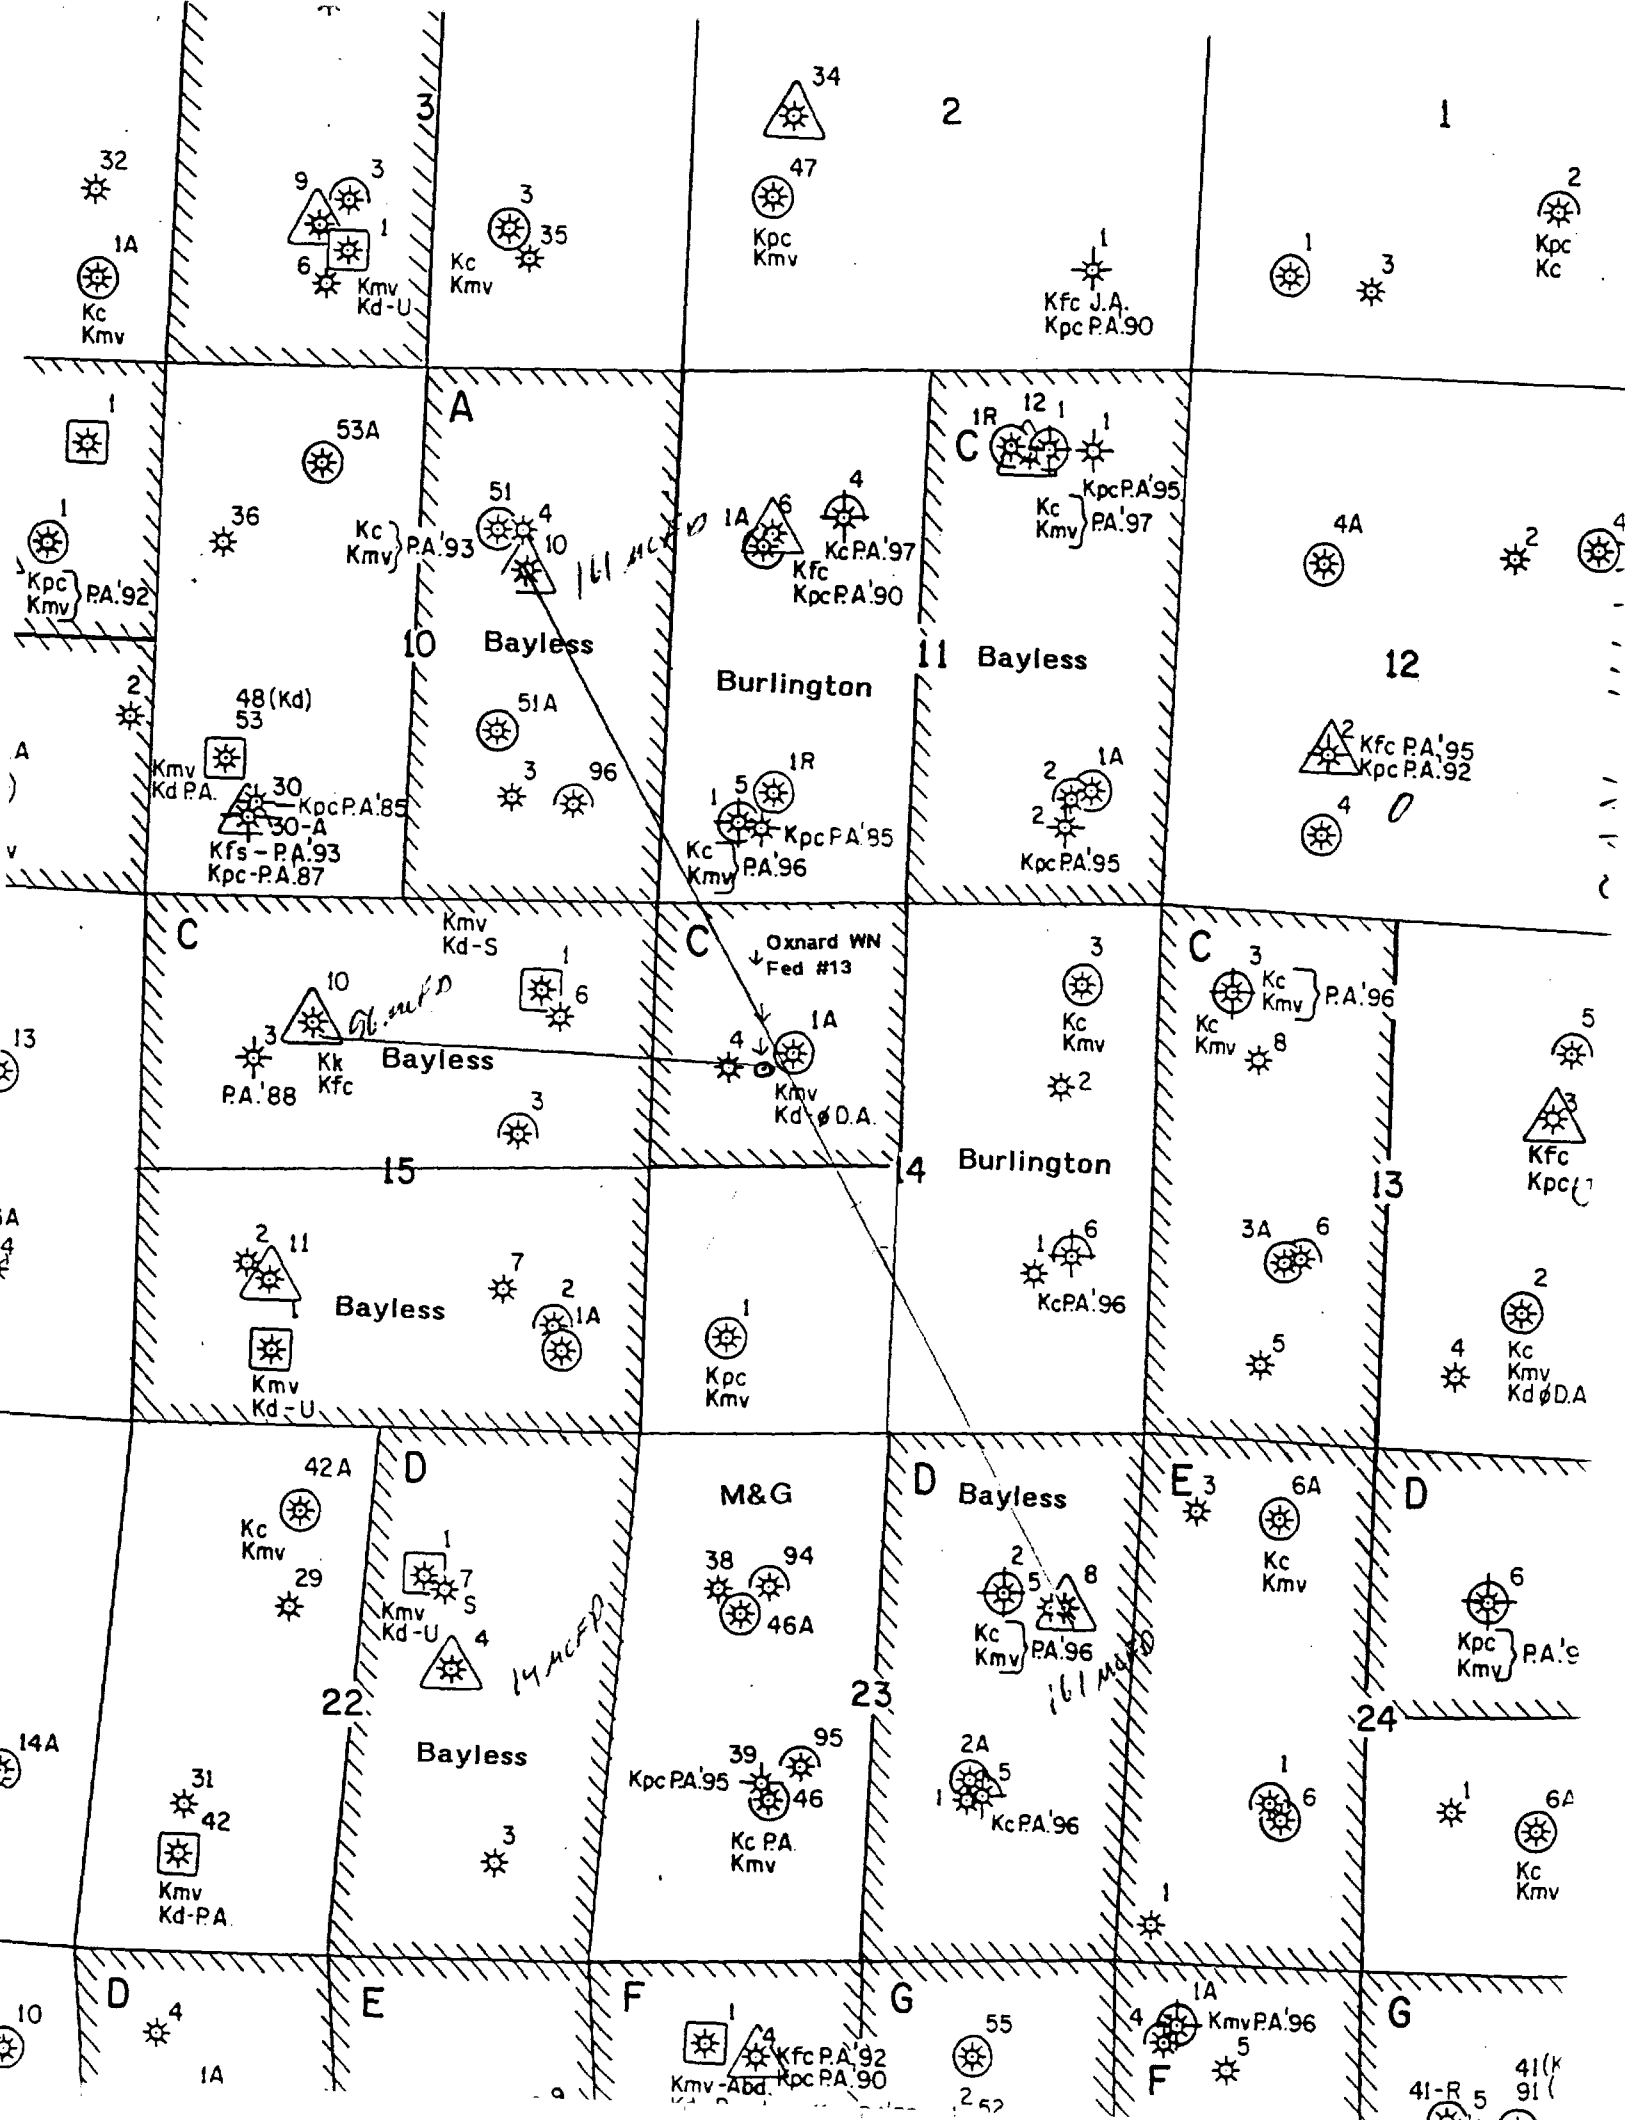

The undersigned has no objection to the  
Unorthodox Location request.
