

GEOLOGICAL REVIEW

STATEMENT OF BOB DOTY, SENIOR GEOLOGIST

I am a geologist for OXY USA Inc. with over 20 years experience in southeast New Mexico. At the request of Mr. Rick Foppiano, I examined well logs, production history and other data in the general area of the Government AB-9 well. I believe that, other than the Delaware production approximately 1.8 miles to the southeast, there are no commercially productive reservoirs in the correlative interval between 3000' to 7400' within 2 miles of the Government AB-9 wellbore.

Robert Doty, Senior Geologist, OXY USA Inc.
