Re: Application of David H. Arrington Oil & Gas, Inc. for compulsory pooling,
directional drilling, and an unorthodox well location, Lea County, New
Mexico

Gentlemen:

This letter is to advise you that David H. Arrington Oil & Gas, Inc. filed the enclosed application with the New Mexico Oil Conservation Division seeking the force pooling of all mineral interests from the surface to the base of the Wolfcamp formation, in the SE/4 NE/4 of Section 29, Township 15 South, Range 36 East, NMPM., Lea County, New Mexico. Arrington proposes to dedicate the referenced pooled unit to its proposed Prince Nymph Well No. 1-A to be drilled by re-entering its Prince Nymph Well No. 1 located in Unit I and kicking off and directionally drilling in a northerly direction to an unorthodox bottom hole location within 50 feet of a point 2440 feet from the North line and 866 feet from the East line of said Section 29. Provided, however, the bottomhole location will not be closer than 200 feet to the southern boundary of the dedicated 40-acre spacing and proration unit.

This application has been set for hearing before a Division Examiner on November 4, 1999. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Anson Energy Corporation
October 14, 1999
Page 2

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,

WILLIAM F. CARR
ATTORNEY FOR DAVID H. ARRINGTON

Re: Application of David H. Arrington Oil & Gas, Inc. for compulsory pooling,
directional drilling, and an unorthodox well location, Lea County, New
Mexico

Gentlemen:

This letter is to advise you that David H. Arrington Oil & Gas, Inc. filed the enclosed application with the New Mexico Oil Conservation Division seeking the force pooling of all mineral interests from the surface to the base of the Wolfcamp formation, in the SE/4 NE/4 of Section 29, Township 15 South, Range 36 East, NMPM., Lea County, New Mexico. Arrington proposes to dedicate the referenced pooled unit to its proposed Prince Nymph Well No. 1-A to be drilled by re-entering its Prince Nymph Well No. 1 located in Unit I and kicking off and directionally drilling in a northerly direction to an unorthodox bottom hole location within 50 feet of a point 2440 feet from the North line and 866 feet from the East line of said Section 29. Provided, however, the bottomhole location will not be closer than 200 feet to the southern boundary of the dedicated 40-acre spacing and proration unit.

This application has been set for hearing before a Division Examiner on November 4, 1999. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Mr. Clifford R. Cone
October 14, 1999
Page 2

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,

WILLIAM F. CARR
