Dear Rand,

We recommend the above captioned wells be plugged to protect the fresh waters of the state of New Mexico, and the environment and correlative rights in the area.

According to the information we have received Rault Petroleum was placed in Chapter 7 Bankruptcy by the U.S. Bankruptcy Court for New Mexico on May 6, 1985. We have no formal notification of this however, only a letter provided to us by Yates Petroleum Corp. from the United States Department of the Interior.

If I may assist you further please let me know.

Yours Truly,

Ray Smith
Deputy Oil & Gas Inspector

CERTIFIED MAIL--RETURN RECEIPT REQUESTED

DECISION

Yates Petroleum Corp.
105 South Forth St.
Artesia, NM 88210

Order to Submit Sundry
Notice of Intent to
Plug and Abandon and
Assign Operator

Order Upheld

By letter dated June 13, 1995, Yates Petroleum Corporation (Yates) requested a State Director Review (SDR) of an Order issued by the Area Manager, Roswell Resource Area, dated May 15, 1995. Yates was ordered to submit a Sundry Notice of Intent to Plug and Abandon the No. 1 Grace Federal located in the SE1/4 SW1/4 of Section 30, T. 2 S., R. 21 E., DeBaca County, New Mexico, on Federal Oil and Gas Lease NMNM36379, and to assign a new operator for the No. 1 Tommy Federal and the No. 2 Eddleman Federal wells, located in the SE1/4 SE1/4 of Section 24, T. 9 S., R. 22 E., Federal Oil and Gas Lease No. NMNM20328, and the SW1/4 NE1/4 of Section 9, T. 7 S., R. 22 E., Federal Oil and Gas Lease NMNM36707, respectively.

Rault Petroleum Corporation (Rault Petroleum) drilled the No. 1 Grace Federal in 1982 under the terms of a farmout agreement between MTS Limited Partnership (MTS) and Corona Oil Company (Corona), then the record title holders of NMNM36379. By properly executed and filed Designation(s) of Operator from MTS and Corona, Rault drilled the No. 1 Grace under the lessee's bond, the policy then in place. There is no record of Rault Petroleum having a performance bond of it's own. According to a Sundry Notice subsequent report of drilling and cementing operations submitted by Rault Petroleum, dated July 10, 1982, casing was set and cemented on June 30, 1982 but the well was never perforated. This is the the last reported activity for this well. A well completion report, Form 3160-4, was never recieved by the RRA.

Federal oil and gas lease NMNM36379 was issued effective July 1, 1981 for a primary term of ten years. Paying production was never established and Federal oil and gas lease NMNM36379 terminated effective June 30, 1991, at the expiration of it's primary term.

The last approved assignments of record title prior to lease expiration were to ABO Petroleum Corporation, Myco Industries, Inc., Yates Petroleum Corporation, Yates Drilling Company, and Bechtel Energy Partners. According to information received in 1992, Rault Petroleum was placed in Chapter 7 Bankruptcy by the U. S. Bankruptcy Court for New Mexico on May 6, 1985. The RRA had no formal notification of the Rault Petroleum bankruptcy prior to 1992.

Re: Change of Operator
Grace Federal No. 1 Well
Township 2 South, Range 21 East, N.M.P.M.
Section 30: SE/4 SW/4
De Baca County, New Mexico

Dear Mr. Gum:

Rault Petroleum Corporation ("Rault") was the original operator of the Grace Federal No. 1 Well located on the captioned lands. Rault went through bankruptcy in 1985 and is now defunct. The well was located on United States Oil and Gas Lease NM 36379, which terminated effective June 30, 1991. Yates Petroleum Corporation ("Yates") held 75.5% record title interest in Federal Lease NM 36379.

By Order dated May 15, 1995, a copy of which is enclosed, the Roswell Resource Area of the Bureau of Land Management ordered Yates to submit for approval a Sundry Notice of Intent to Plug and Abandon the well. Yates sought an administrative review of the Order before the State Director of the Bureau of Land Management. By Decision dated August 29, 1995, a copy of which is enclosed for your information, the Deputy State Director of the Bureau of Land Management upheld the Order dated May 15, 1995 and ordered Yates to submit a Sundry Notice of Intent to Plug and Abandon the Grace Well. Yates complied with the decision by submitting a Sundry Notice on September 27, 1995 giving notice of its intent to plug and abandon the well.

As required by Rule 1104, I am enclosing five copies of Oil Conservation Division Form C-104 reflecting that Yates is succeeding Rault Petroleum as operator of the Grace Federal No. 1 Well. It is not possible to obtain Rault's signature on the change of operator because the corporation is no longer in existence. Please approve the change of operator so that Yates will be in a position to plug and abandon the Grace Well.

Is your RETURN ADDRESS completed on the reverse side?

SENDER:

- Complete items 1 and/or 2 for additional services.
- Complete items 3, and 4a & b.
- Print your name and address on the reverse of this form so that we can return this card to you.
- Attach this form to the front of the mailpiece, or on the back if space does not permit.
- Write "Return Receipt Requested" on the mailpiece below the article number.
- The Return Receipt will show to whom the article was delivered and the date delivered.

I also wish to receive the following services (for an extra fee):

1. ☐ Addressee's Address
2. ☐ Restricted Delivery

Consult postmaster for fee.

Re: Properly Abandoned Wells

Dear Sirs;

The state of New Mexico is in the process at this time of reviewing leases and determining the number of abandoned wells.

Rule 201 A. states the operator of any well drilled for oil, gas or injection, for seismic, core or other exploration, or for a service well, whether cased or uncased, shall be responsible for the plugging thereof.

Rule 201 B. states a well shall be either properly plugged and abandoned or temporarily abandoned in accordance with these rules with 90 days after (1) a 60 day period following suspension of drilling. (2) a determination that the well is no longer usable for beneficial purposed. (3) a period of 1 year in which a well has been continuously inactive.

House Bill 65 has been passed by the legislature and provides some tax incentives for wells put back in production. However, if there are no plans to put these wells back in service then they need to be either plugged or properly temporarily abandoned.

After reviewing Rault Petroleum files we see there are numerous wells on state land as well as federal land that need to be plugged.

Please advise the NMOCD District II office in Artesia, NM by February 1, 1996 of your plan to bring these wells into compliance.

Yours Truly

Ray Smith
Deputy Oil & Gas Inspector

Gentlemen:

As of the above date we have not received an answer to our letter dated Sept. 27, 1988 regarding the above captioned wells. We have your notice of intention to plug and abandon these wells. We now need the subsequent reports so we can complete these files.

Thank you for your prompt attention to this matter.

Sincerely,

A handwritten signature in cursive script, appearing to read "Mike Williams".

INSTRUCTIONS

This form is to be filed with the appropriate District Office of the Division not later than 20 days after the completion of any newly-drilled or deepened well. It shall be accompanied by one copy of all electrical and radio-activity logs run on the well and a summary of all special tests conducted, including drill stem tests. All depths reported shall be measured depths. In the case of directionally drilled wells, true vertical depths shall also be reported. For multiple completions, items 30 through 34 shall be reported for each zone. The form is to be filed in quintuplicate except on state land, where six copies are required. See Rule 1105.

3952			Montoya		Undesignated		320	

- Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.
- If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
- If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes ☐ No If answer is "yes," type of consolidation N/A

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.)

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, force-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Division.
