Re: Application of BP/Amoco for a downhole commingle reference case.

This case was heard on Oct. 19th and was continued until the Nov. 16th hearing in order for the Division to review this matter more thoroughly and to discuss internally PB/Amoco's draft order. We here at the Division could then decide rather additional testimony would be needed. Since receiving Mr. Carr's proposed draft on Nov. 2nd the Division has been unable to schedule a meeting time acceptable with all concerned to adequately discuss this matter. At this time Case 12520 will be continued to the Division hearing scheduled for Dec. 21, 2000. Further, the record will remain open in this matter until that time.
