San Juan County, NM

Dear Mr. Arnold:

The purpose of this letter is to provide written notice pursuant to the Rules and Regulations of the New Mexico Oil Conservation Division ("NMOCD") that Robert L. Bayless also requests that the order designate Bayless as operator of the Well, and that it provide for the recovery by the joining working interest owners of the costs of drilling, completing, equipping and operating the Well, together with a reasonable charge for risk involved in drilling and completing the Well. In addition, Bayless requests that the Order establish a reasonable charge for supervision of the Well during the drilling and production stages.

You may appear at the hearing to record any protest or objection you may have with respect to the subject matter of the application. For your information, the Rules and Regulations of the NMOCD require that each participant in an NMOCD hearing file a Pre-Hearing Statement on or before the Friday next preceding the date of the hearing.

RE:

Bayless' AFE

HUN NOP PI # 2 Well

San Juan County, New Mexico

Dear Mr. Arnold:

Robert L. Bayless, Producer LLC proposes to drill a Well to test the Dakota formation, estimated at a depth of 6,650 feet, at a legal location in the NW/4 of Section 19, Township 26 North, Range 8 West, San Juan County, New Mexico. You are the owner, through the subject estate, of an undivided interest in the proposed W/2 proration unit for this Well.

We have enclosed Bayless' Authority for Expenditure covering the subject Well for your review. We expect this to be a marginal well, but feel it will reach payout with a modest opportunity for a return on our investment.

As an alternative to participating in the subject Well. Bayless proposes to purchase your leasehold interest for \$100.00 per net mineral acre assigned to Bayless. Such assignment would be; 1) limited to those depths below the base of the Pictured Cliffs formation. 2) subject to existing leasehold burdens of record, and 3) subject to approval of form by Bayless.

The rig availability in the San Juan Basin is limited, but it appears that a rig will become available in the immediate future. Therefore, we ask for your early review and response to our request for participation or support in the drilling of this Well.

We would appreciate you providing us with information regarding the heirs of Dorothy DeGolyer Arnold (i.e. full name, address, phone number and relationship). Should you have any questions, I can be contacted at (505) 564-7806.

Yours truly,

Paul Hall, CPL/ESA Land Manager
