STATEMENT OF CASE

APPLICANTS

Each of the applicants in the above-captioned cases seek an order pooling all mineral interests from the surface to the base of the Mississippian formation in certain spacing and proration units located in the N/2 equivalent of Irregular Section 3, Township 16 South, Range 35 East. Said units are to be dedicated to a well to be drilled to a depth sufficient to test all formations from the surface to the base of the Mississippian formation. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of applicant as operator of the well and a charge for risk involved in drilling said well. Said area is located approximately 6 miles west-northwest of Lovington, New Mexico.

OTHER PARTY

David H. Arrington Oil & Gas, Inc. will present testimony concerning the risk associated with the drilling of a well on the subject acreage and the circumstances where pooled parties should be afforded an opportunity to voluntarily participate in any efforts to drill and complete a well on the spacing units pooled by the order in this case.

PROPOSED EVIDENCE

APPLICANT

WITNESSES (Name and expertise)	ESTIMATED TIME	EXHIBITS
Bill Baker (Geologist)	5 Minutes	

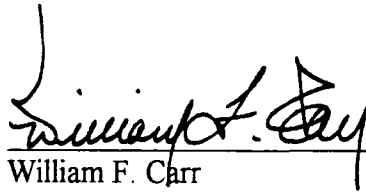

Pre-hearing Statement

NMOCD Case Nos. 12535, 12567, 12569 Consolidated
