Energy, Minerals & Natural Resources Dept.
Oil Conservation Division
Attn.: Ms. Lori Wrotenbery
2040 South Pacheco
Santa Fe. New Mexico 87505

Dear Ms. Wrotenbery:

Chevron USA respectfully requests your approval of this administrative application for the subject non-standard gas well location in the Monument Tubb West Pool.

The G. C. Matthews #12 (30-025-05953) was drilled and completed in October, 1954, as a Paddock well in the Monument Paddock Field. The well has been completed in the Grayburg and the Eumont. The most recent work was in 1997 when the Yates was completed. See the attached wellbore schematic for the history of the well. The #12 well currently is shut-in. This well was drilled as a standard location for the Paddock at 330' from the lease line, but is a non-standard location for the Tubb gas.

The Cross Timbers Barber Bertha #12 (30-025-05978) well is located at 330' FNL and 660' FEL of Section 7, T20S, R37E and is the south offset to Chevron's #12 well. The G. C. Matthews #12 well will be deepened from 5700' to 6500' and then completed in the Tubb. The cost to do this is significantly less than to drill a new well.

A copy of this Application was sent to each of the offset operators. All notices were sent by certified mail.

Attachments include: map, wellbore schematic, C-102 plat, list of offset operators, and a copy of the notification letter sent. If you have any questions or require any further information concerning this application, please contact me at (915) 687-7152.

Sincerely,

Lloyd V. Trautman

Sr. Petroleum Engineer

(Offset Operator)

Ladies/Gentlemen:

Attached is a copy of an administrative application for a non-standard Monument Tubb West gas well location.

Chevron U.S.A. is planning to deepen the existing G. C. Matthews #12, which is at a non-standard location for the Monument Tubb West Pool.

Any objections to this application must be filed with the New Mexico Oil Conservation Division within 20 days after the Division has received the application.

If you have any questions regarding this application, please contact Lloyd Trautman at (915) 687-7152.

Sincerely,

Lloyd V. Trautman Sr. Petroleum Engineer New Mexico Area
