**RE: Cooper G #1 well  
Section 11, T-24-S, R-36-E  
LEA COUNTY, NEW MEXICO**

Gentlemen:

As per our telephone conversation, the records indicate that you are the operator of the abovementioned well. As for the history of the well, it appears Meridian fraced the Yates Section and did not make a well. Subsequently you became the operator of record. Since we now own all of the leasehold interest from the surface to 4,000 we would be willing to take over this well for the plugging liability.

As per your offer to take an interest in this lease, we already have all of the working interest in place, but thank you for your interest.

Please let us know what your position is in regard to this matter.

Yours truly,

Steven L. Burleson

SLB/skb
