Re: **Case 12622 (De Novo):** Application of Nearburg Exploration Company, L.L.C. for two non-standard gas spacing and proration units, Lea County, New Mexico.

Case 12908-A (Severed and Reopened): In the Matter of the hearing called by the Oil Conservation Division for an order creating, re-designating and extending the vertical and horizontal limits of certain pools in Lea County, New Mexico.

Dear Ms. Davidson:

Enclosed are the revised exhibits of Nearburg Exploration Company, L.L.C. which I have previously identified in letters to Mr. Ross. As I advised in my letter of September 30, 2002, the enclosed cross sections (Revised Nearburg Exhibits 5 and 6) have only been revised to make them easier to read. The location map contains information contained on Nearburg's Orientation Plat and will be used as a demonstrative exhibit during the hearing to identify certain wells to the Commission as we work through our testimony. The purpose of these exhibits is to facilitate our presentation of evidence and contain only information contained in the exhibits produced on September 4, 2002. Pursuant to my letter of October 2, 2002, I enclose a revised structure map (Revised Nearburg Exhibit No. 8) which has been changed to correct control discrepancies in an area approximately two miles to the northeast of Section 34. The revisions do not affect the mapping in of the Morrow formation in Section 34.

By copy of this letter, I am enclosing additional copies of each exhibit for
