Re: Case No. 12742
Order No. R-11688
Eland Energy, Inc.

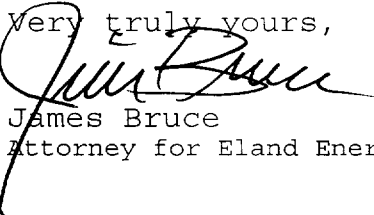

Dear Mr. Brooks:

Eland Energy, Inc. requests entry of a *nunc pro tunc* order correcting the above order in the following respects:

1. Finding paragraph (3) and Decretory paragraph (1) each reflect a well located 660 feet FSL & FWL of the section. The application requested pooling of a well at an orthodox location in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of the section. Although the original location was 660 x 660, the testimony at hearing was that the well would be moved due to topographic reasons. ~~Therefore, my client requests that the order reflect either that the well be drilled "at an orthodox location" or at a location "695 feet FSL & 745 feet FWL."~~ *ex*
2. Decretory paragraph (2) states that the well should be drilled to test the Abo formation. That should be Ordovician formation.

Thank you.

Very truly yours,

James Bruce
Attorney for Eland Energy, Inc.
