OIL CONSERVATION DIV.

01 SEP 28 PM 2:01

September 27, 2001

Lori Wrotenbery
Director Oil and Gas Division
1220 S. Saint Francis
Santa Fe, NM 87505

Dear Lori:

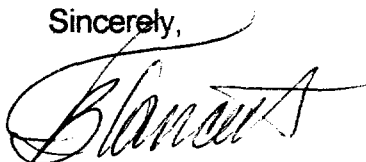

I am requesting on behalf of the individuals concerned, that the hearing be reschedule for November 1, 2001 in San Juan County. (Increase spacing for the Dakota Formation)

As we discuss on the tour you took with me, there is much concern about the surface damage. We understand your agency is not responsible for the surface, but you must be aware that approval of increased spacing will create more surface damage. I hope in an open hearing we can address surface damage issues and the reclamation that might be possible by working together.

In 70-2-6 paragraph B : Provisions are made for you to include this request in the hearing process. We request that you do so.

Thank you for the time you took while you were in Aztec last month and I hope to see you again soon.

Sincerely,

T. Tweeti Blancett
