

February 5,

25 wells 11/16/  
-5  
20 wells

20 months  
13 1/4 yrs

Dear Tim Gum:

As we discussed during our meeting I am trying very hard to return all non-compliance wells back to production. I will do this one well a month until all wells are back into production. I have some wells that are too deep for me to pull myself and, I am waiting for a pulling unit to do those. As soon as I get one I will do them, but still I will only be able to do one a month.

I am going to try and proceed in this order,

30-005-62761 Valley B St. #001  
30-005-62250 Yates Brown St. #001  
30-015-00235 Williams #002  
30-015-00318 Williams #003  
30-015-00236 Williams #004  
30-015-00237 Williams #005  
30-015-00238 Williams #006  
30-015-00243 Kindle #002  
30-015-06102 Platt #001  
30-015-00247 Platt #002

I know this is not all of the wells, but as I get these done I will proceed on down your list until all are completed. As I said, this is the order I am going to try to stay with the best I can.

Louis Fulton
