RE: INACTIVE NON-COMPLIANCE WELLS

In response to your December 26 letter, Ray Westall sets out the following procedure on the inactive wells. This is the same as previously responded by phone and by letter from Mr. Westall.

Randall Harris  
Geologist

OCD	EXHIBIT NO. 168
CASE NO. 12811	

168

<sup>1992</sup>  
<sup>1991</sup>  
Culwin Queen Unit 4&5 - These wells produce.

<sup>1992</sup>  
<sup>1980</sup> <sup>1991</sup> <sup>1993</sup>  
Culwin Queen Unit 2, 6, 16 & 17. We are currently replacing flow and power lines within the unit and reworking several wells. These specific wells will be worked on or about every two months, having them all producing within eight months.

<sup>1991</sup> Featherstone State - We do not own this well it was sold to Marathon in 1997.

<sup>1991</sup> Gulf A State #1 - A C-108 is being prepared to convert to water disposal.

<sup>1991</sup> Forehand #1 - This well produces and always has.

<sup>1991</sup> Forehand #3 - This is an approved water disposal well.

<sup>1991</sup> <sup>1991</sup>  
Hinkle B Federal #8 & 20 - These wells are producing

<sup>1993</sup> Huron Federal #1 - Sundry Notice has been approved by the BLM for plugging, and will proceed as soon as a plugging company is available.

<sup>1996</sup> Lakey Com #1 - A C-103 will be filed for Plug and abandonment and will be carried out as soon as a plugging company is available.

<sup>1996</sup> Lusk B #1 - A C-103 will be filed for Plug and abandonment and will be carried out as soon as a plugging company is available.

<sup>1996</sup> Myrtle Myra #3 - A C-108 is being prepared to convert to water disposal.

<sup>1996</sup> State #6 - Will rework within 90 days and place back on production.

<sup>1988</sup> State G Com #1 - Proposal to partners to recomplete into the Cisco formation, operations should start with six months.

<sup>1991</sup> <sup>1996</sup>  
Texas Crude #1, 2 - With the BLM's knowledge we are laying flow lines for water disposal and installing new tank batteries for these wells and will place on production when surface work is completed.
