Re: Case No. 12811

Dear Sir:

Pronghorn Management Corporation (PMC) respectfully requests a 180 day extension to complete the necessary work to bring all wells into compliance. Although we have made progress, we still need more time. Our specific plan of action would be to have the wells in compliance within the 180 day extension period. Economics, cash flow and the state of the industry have slowed the project, not allowing us to meet the previous deadline.

The principals of PMC have lived in New Mexico for over 45 years and operated oil and gas properties for over 30 years. It is our desire to be in compliance and continue to operate in the State of New Mexico. As you can see we have made our home and living in New Mexico and are not going anywhere.

We have worked with the NMOCD on many projects throughout the years and have maintained a good working relationship. In all our endeavors, they have been more than fair and reasonable to work with.

Thank you for your time and consideration.

Sincerely,

Pronghorn Management Corporation  
G. A. Baber

GAB/lm
