RE: N/2 of NE/4 & NE/4 of NW/4 Section 14
T-24-S R-36-E, Lea County, New Mexico

We are proposing to lease your minerals for \$250 per acre for a three (3) year paid up lease for a quarter (1/4) royalty from the surface to 3800'. We can use your form of lease or we can send you a proposed form or lease for you to execute.

We would like to drill a well before the end of this year, so your speed in returning these leases would help us get you in pay status quickly. We show that Mobil has a 15/120th interest in the acreage.

If you have any questions, please do not hesitate to call.

Yours truly,

Steven L. Burleson
Vice-President

Re: Cooper B Lease
N/2N/2, Section 14, T-24-S, R-36-E
LEA COUNTY, New Mexico

Gentlemen:

It appears, Exxon Mobil has 1/8th of the mineral rights in the east 120 acres of the referenced description. As per our earlier offer of \$250 per acre and 1/4 royalty still stands.

If this is not acceptable to you then you could join in the drilling of a new well in this area. Enclosed is an AFE for \$258,275, your 12.5% share WI would be approximately \$32,284.

We expect this well to produce initially at a rate of 150 MCF per day and accumulative 250,000 MCF of reserves.

Since we find no Operating Agreement in our files, you would have to execute a COPAS form agreement with \$350 per well overhead charges, 300% non-consent penalty and \$2000 developmental drilling overhead.

If you have any questions, feel free to contact me.

Yours truly,

Steven L. Burleson
Vice-President
